Approval of Minutes
MOTION BY COUNCILMEMBER SPADAFORE TO APPROVE THE MINUTES OF MARCH 4, 2019 AS PRESENTED. MOTION CARRIED 8-0.
Public Comment on Agenda Items
No comments.

Council President Wood spoke about potential new dates for the budget schedule, proposing all items from the currently posted April 1st date to be moved to April 15th. That would cancel the April 1st Committee of the Whole meeting. Mr. Smiertka asked when the Red Cedar Development was planned to be heard, and it was stated that hearing would not even be until April 8th, 2019 so there would be nothing on the April 1st agenda on it.

PRESENTATIONS
2019 Elected Officers Compensation Commission (EOCC)
Mr. Melot and Mr. McAlvey provided a power point presentation (part of the meeting packet) to the Committee. Council President Wood asked them to address the role of the EOCC and why they are presenting to the Committee. Mr. Melot referred to slide 2 and 3 which outlined the purpose and procedure of the Commission, noting that they have had 4 meetings to date, and have to make a recommendation by March 23, 2019. Mr. Melot then explained that the focus of the Commission in 2019 was to address the fact that there has been no adjustment since 2015 for the elected officials, not even to meet inflation. He continued clarifying that when looking at the Mayor’s position he was not identify that any Mayor from Lansing has gone onto a higher elected positions, so they approached his position as a “Chief Administrative Officer”, and compared to Madison, WI which had similar population in an urban area, is also a Big 10 college town, with a strong Mayor government, and that person is $141,000. Moving on, the slide referenced comparisons to non-profit executive salaries from 2016, and comparisons for Council and the Clerk, were noted be based on information provided by City staff. Mr. Melot noted that some municipalities Council only had 24 meetings in a year, and City staff noted that the Lansing City Council holds 48+ per year, which is more than their counterparts in comparison cities. Mr. Melot then outlined the proposal the Commission was considering, which he noted would bring the elected officials up to 2019 with inflation from 2015, and then moving forward it would set the inflation rate increase in 2020 and 2021, since the Commission will not reconvene until 2021. Lastly, it was noted that there were no recommended changes to the fringe benefits.

Slide 11 outlined he proposed compensation for the Mayor at 2019-$138,778; 2020-$141,554 and 2021-$144,527. The Clerk’s rate at 2019-$94,102; 2020-$95,984 and 2021-$98,000. Lastly the slides outlined the proposed Council rates at:
President- 2019-$28,793; 2020-$29,387; 2021-$30,004
Vice President- 2019-$27,172; 2020-$27,715; 2021-$28,297
Council Members – 2019-$26,199; 2020-$26,723; 2021-$27,284
Mr. Melot concluded the details on the salary increases by stating that the total adjustments in calendar year 2019 would be $33,353.00

Council Member Jackson recognized that the EOCC Members individually reached out to Council and also invited them to their meetings, and asked if the EOCC received the answers and information they were looking for. Mr. Melot confirmed and those parties that did attend their meetings brought forth input that was useful. Mr. McAlvey added that the Commission also wanted to have better understanding of everyone’s role, what their tasks are involved, and any growth in their jobs.

Council Member Hussain informed the EOCC Members that in 2017 it was rejected because there was a 20% increase in 2015 which the Council at the time in 2017 was overshot. He continued, stating in his opinion that the recent proposal they just presented on would be undoing what Council did in 2017, and he was struggling with the large increases. Mr. Melot acknowledged he was not part of the EOCC in 2017, so could not speak their 2017
recommendation, but what has been guiding deliberations in the EOCC is that no one is interested in issuing pay cuts for those that make the large decisions for the City. When inflation hits and there are no increase, they view it as a “pay cut”, and that is why the proposal is approach as a two phase, noting to Council that they do not need to take any action, and no action would be it passes, if they took action it would be to reject it under a super majority. Mr. McAlvey added to the discussion that the EOCC members were presenting because it has never been done before so they wanted to explain what the Commission does, is considering and hear from the Council.

Council Member Washington spoke in opposition and acknowledged she also was against the 20% in 2015, but that rejection did not pass. In 2017 she confirmed she attended the Commission’s meetings and asked for no increases. Council Member Washington went on to explain that the median household income in the City is $36,145 and those people are the ones that will be paying for the wages. In her the elected officials are public servants and she would not support a raise and playing “catch-up” is unfair to the citizens. She concluded by stating she would not spear head a failed resolution to reject again this year.

Council Member Spitzley acknowledged the EOCC presentation, and noted that in 2015 the economy was different then what it is now, when trying to attract the best and brightest employees, you need to be competitive, and she appreciated the comparison from other cities. She noted it appeared to be roughly a 10% increase and hard to understand, because she understood inflation should have been incorporated last time and so now the Council is hearing a proposal for large percentage raises. It should be considered a cost of living not an enrichment, and the City staff has received a cost of living increase and Council has other jobs with this being their second job, but the Mayor and Clerk need to be paid comparable salaries.

Council Member Spadafore stated he could not support inflation increases in a catch up provisions, and he ran for the Council knowing what the salary was and the Mayor and Clerk also knew. He concluded by stating he could not support an increase for catch-up.

Council Member Hussain stated an earlier statement that their recommendation in 2017 was rejected because he believed they over shot the their recommended for compensation. He then asked how they came up with 48 meetings for the City of Lansing City Council. Mr. Melot stated it was provided by staff, and Council President Wood asked Ms. Boak if she calculated the number from Council meetings, Committee of the Whole meetings and other Committee meetings, and Ms. Boak confirmed. Council Member Hussain then went on to state that in his opinion the City is in the top of poverty rates and bottom of median household income.

Council Member Spadafore stepped away from the meeting at 6:00 p.m.

He continued that he understood if the amount was $33,000 in 2019, that would not fix all the issues in the City, but it would be the message it sends.

Council Member Dunbar spoke on what was done in the past where when employees were put on furlough, Council took a 10% voluntary pay cut, and the Council has never asked their employees to lower their wages when the elected offices don’t get paid he same amount as their counterparts.

Council Member Spadafore returned to the meeting at 6:02 p.m.

She acknowledged that there are industries jobs where they are lower paid, but these positions are a non-comparable position, the City has never asked their employees to never take a raise because the citizens they service do not make the same as them.
referred back the 2015 increase where it was stated the EOCC studied the union increases and negotiations, and asked if this current EOCC has done the same. Mr. Melot confirmed they were provided data on all bargaining unions, and explained to the Committee that this is the crux of the process; playing a hypothetical no action taken or going forward not back, but constantly playing catch up. In 2015 it looked like a big number because there had been no action for an extended period of time. Mr. Melot recommended that if the City can get into a process for an annual cost of living adjustment built in it would help, and the proposal would not allow the elected officials to fall behind. The Elected Officers Compensation Commission’s job is to evaluate and make the best assessment on what to do. Council Member Dunbar asked that they review the union negotiated list for what the employees increases are.

Council Member Jackson stated that it appeared there was almost a conflict of interest with the Council determining their own salary, and every 2 years, Ward 1 and 3 are up for election along with (2) two At-Large Members, so it always appears to be bad optics for those running for re-election during the determination of the EOCC. Mr. Melot pointed out again that the Council only takes action to reject it, and to accept it does not require a vote so the optics on each member to accept it would not be visible. Council Member Jackson acknowledged and confirmed they are looking for recommendations from those that are making the recommendation for guidance.

Council Member Spitzley agreed with the earlier statement that these positions are political and they are aware of that when they run for office, and as to the “no action” option, her belief is that they are still taking action in what it represents even when they do not formally accept it. Council Member Spitzley went on to recommend that the Commission implement a cost of living so it does not happen again, but whether they are currently behind is not all relative, 10% is a large amount. She would not support a large percentage increase, but it did sound reasonable to give increases. Mr. McAlvey recommended a change in the ordinance if the Council had concerns on timing and any conflicts. He then added that the EOCC is trying to make the appropriate and fair decision, they are currently considering what is presented.

Council Member Washington acknowledge that she understand the thinking behind the recommendations and contrary to what was stated earlier, she would not care if it was an election year because her stand is her stand. It appeared Council would support inflation increases but she agreed with Council Member Hussain and Spadafore that she did not support an increase to catch up, and a 10% increase she would not even consider.

Mr. Smiertka stated the ordinance was started in 1973 pursuant to the Home Rules Cities Act, which gives permissive powers to the City to adopt this type. The Commission falls under the Charter 104.2 and they may continue to determine compensation and benefits. There is a provisions in that Section of the Charter where Council could amend it.

Council President Wood pointed out that as stated by Council Member Dunbar, when the City employees were furloughed days, and then were brought back up they did not add in the cost of living to make up for the years they did not get it. In her opinion the adjustments in 2015 and 2017 were remembering where the employees were and being treated differently.

Council Member Garza stated he also ran for the position knowing it did not pay a lot, it was a public servant position and therefore was not a Council member for the funds. He added that he could not vote yes on an increase knowing the City needs more employees.

Council President Wood acknowledged Mr. Melot and Mr. McAlvey on their presentation and the work the EOCC has done thus far, making the detail informative. Once it is referred, she
explained, the Council will have 30 days to reject or deny it with a 2/3 vote of Council or if they take no action during the 30 days it sits it will automatically go into effect.

Council Member Dunbar asked Mr. Smiertka if Council voted to reject it, do they have reject it entirely. Council President Wood stated that Council has always been advised they cannot divide the recommendation, and told it was all or nothing. Mr. Smiertka stated he would research the question to see if there has ever been prior legal opinion on it. Council Member Spitzl ey asked if the EOCC could bring forth more than one recommendation, and when it comes forth can Council accept part and deny part. Mr. Smiertka stated he wanted to make sure the Office of the City Attorney has not made a contrary opinion in the past.

**DISCUSSION/ACTION**

**DISCUSSION – Ordinance Review on Employees Retirement**

Council Member Spadafor e stepped away from the meeting at 6:28 p.m.

Council President Wood referred the Committee to the analysis handout and answers to (3) three questions raised by Council Member Spadafore at the last meeting.

Council Member Spadafor e returned to the meeting at 6:29 p.m.

Council President Wood then informed the Committee that in order to move forward with the ordinance, they have to work with the Teamsters for collective bargaining on a Memorandum of Understanding (MOU), then once that has been approved, Council can move forward with the draft ordinance in the handout.

Mr. Abood acknowledged that the MOU is part of the methodology because Teamsters the contract has expired, it has to be negotiated with the union and since their CBA is in negotiations, the question is now if the union would enter into a MOU with the City to allow the benefit, then Council can amend the ordinance, but it was stated again that the union needs to sign off first.

Council President Wood confirmed held a discussion with Lynne Meade with the Teamsters prior to this meeting and was assured they would address it ASAP.

Council Member Spitzley asked if the MOU would only apply to just this instance or the other 2 people mentioned at the last meeting. Mr. Abood stated it would be up to the union on who to include. They would include the employees who would be affected, not a single individual. Council Member Spitzley then asked it be conveyed to the Union so they know the MOU does not cover one person. Mr. Abood confirmed that had been discussed already with Mr. Tate, Chief Labor Negotiator for the City, and he has all the materials and will follow up with the bargaining unit.

Mayor Schor stated he was not present at the last Committee of the Whole meeting when this discussion began, however he was in attendance at the ERS Board meeting, and was opposed to the action at the time, because the attorney recommended to the City that Mr. Hassett was not qualified to retire under the conditions in the current ordinance. The Mayor then stated if Council had any inclination to change the ordinance, he would support, seeing the City Attorney opinion. He confirmed he would also have Mr. Tate start working on the MOU and move forward down the path towards that resolve, unless hear Council would not consider the ordinance. Council President Wood spoke on behalf of Council stating that 90-100% of Council said that if the ordinance is what is needed them will move forward, and no Council Member objected to that statement. She then asked that the MOU be completed by March 25th and at that time the Committee can address the introduction of the ordinance.

Council Member Washington asked that the MOU and ordinance be a priority.
Council Member Jackson asked if the MOU would affect only 3 people, and Mr. Dennis Parker confirmed. Council Member Jackson asked if the City funds were calculated on the balance of his retirement. Mr. Dennis Parker stated they had an actuarial done, but he did not offset the savings or reduction due to these employees not gaining any more time. Mr. Brewer was asked for an end equation, and if this ordinance help or make it worse. Council President Wood stated that if he retired today, his retirement would be based on 25 years of service. Council Member Jackson then stated that if Council did step in with the ordinance it would be a cost savings to the City. Mr. Brewer clarified that Mr. Hassett funds would no longer come from the general fund for wages, but out of the retirement fund.

Council Member Washington stepped away from the meeting at 6:38 p.m.

So there would be savings on wages if he retires early. Council Member Spadafore asked if the pension would be calculated on 25 years or 25 years plus the 18 months he is asking for. Mr. Hassett confirmed it is the later; he is asking for the time.

Council Member Washington returned to the meeting at 6:40 p.m.

City Recycling and a Ten Year Recycling Agreement- Questions/Answers
Mr. Kilpatrick provided a presentation updated from the last meeting which spoke to the existing process. (Part of the packet)

Council Member Garza stepped away from the meeting at 6:42 p.m.

Council President Wood explained to the public that it has been brought to Council’s attention that the contract with Emterra had inadvertently been sent to Council so Council will not be taking any action, but action will be taken with the Mayor. However, since there were a number of questions by Council, Mr. Kilpatrick is present to provide clarification and hopefully answers to questions. Mayor Schor explained that the Emterra contract is actually a service agreement, not a contract, so as Mayor he can sign. He continued to explain that since the last meeting there has been 2 changes made; 1) they have insisted the facility be in the City of Lansing, and 2nd that it now include language on commercial recycling. He assured Council he has not signed anything yet. Council Member Spitzley asked if the changes now change how the other bidders would have submitted.

Council Member Garza returned to the meeting at 6:46 p.m.

Mayor Schor stated it would not change anything.

Mayor Schor went through the presentation outlining collection transferring, hauling process, and the “tipping” operation which occurs at what was designed as the salt shed- making the process single stream. Mr. Kilpatrick explained the reason an RFP was done was because they are still using the old salt shed, and it is dumping salt into other materials because it is now a sound structure. It was noted that if they do not address a new recycling facility they will need to build a new salt shed. It was also noted that there is one FT employee who is currently moving recyclables and hauling. The Committee then reviewed the slide on the proposals that were submitted and what each offered to do.

Council Member Dunbar returned to the meeting at 6:50 p.m.

Mr. Kilpatrick proceeded with his presentation which included a map outlining the locations of Waste Management (26), Republic (12) and Emterra (1). Outlined on the next slides were details on the current process based on the 2017 data, which broke down transfer was
$29.05/ton for transfer; $21.16/ton for haul and $.078/ton for processing. This brought the overall for 2017 actual to $50.99/ton. It was noted on the cost alternatives slides that Grangers 1st option in the RFP would be $100.00/ton; second option would be $75.05/ton; CE/Republic at $78.05/ton and Emterra proposal would be $56.74/ton all based on the 2017 data. Council Member Dunbar asked if these breakdowns now explained her question from the last meeting on the handout from that night, and Mr. Kilpatrick confirmed this better explained the details.

Council Member Hussain stepped away from the meeting at 6:55 p.m.

Council Member Hussain returned to the meeting at 6:56 p.m.

Mr. Kilpatrick acknowledged that he did not have the answers to the questions from the last meeting, and will get those along with any questions from tonight answered within the next few days. He was able to state that regarding one question on tonnage in 2017, 75% of that was generated in the City of Lansing and the other 25% was East Lansing. Republic is collecting some in the City and is starting to contribute some tonnage, but still 92% is the City. The City is still promoting recycling but will not intend to get into the commercial recycling business.

Council Member Spadafore asked if they plan to take the section out of the contract that speaks to multi-family, do they still plan try to get multi-family units recycling. Mr. Kilpatrick stated that if multi-family could use carts they would consider, but the City will not get into dumpsters and new equipment to handle those. They do not have any intent to expand, and few years ago there was a commercial rate and also a second recycle bin rate.

Council Member Washington acknowledge Mr. Kilpatrick for taking Council Members on a site tour of the facility, and asked for them to consider more educational pieces on what to and what not to recycle.

Council Member Garza asked if the City of Lansing materials will be recycled with Emterra into the resin they represented at the March 11, 2019 Committee presentation. Mr. Kilpatrick stated they do that with a subsidiary in Canada and is not planned for Lansing. The Emterra facility will be automated with 12+ employees to separate the materials.

Council President Wood recapped that there are still outstanding questions on how Emterra will address and abate the noise and odor before they even begin their business; if the City has looked at how to grow the interest in recycling because there would be a concern they could not “grow” what they need in tonnage. They need to also address what the trucks with the new facility will cause on the City streets.

Council Member Spadafore stated that the discussion will continue in May at the Committee on Public Service.

In orange are the changes of the First Amendment (which was substantive, and Council saw prior to approving the CDA); in blue are the changes of the proposed Seventh Amendment. By way of summary, the changes are as follows:

- The purchase price is increased by $21,670.00; this was done in recognition of the delay in closing until after the new year.

- Signal to close is moved to July 31, 2019, closing must still happen within 30 days of that date, so August 30 at the latest.

- There are several changes to the physical layout of the project, due to developer eliminating one of the two remaining plinths (called “IPS” in the agreement), those changes are:
  
  o Now the two hotels, a full service and select service, are housed in the same structure, instead of two structures;
  
  o The total square footage of restaurant and retail is reduced from 40,000 to 35,550;
  
  o The number of market rate units is reduced from 200 to 150;
  
  o The separate structure for market rate “active senior” housing is eliminated entirely, it had 98 proposed units;
  
  o Student housing is now located on the main section of the development, instead of being right next to MSU (that area, not visible from Michigan Ave., is now all parking);
  
  o Student housing will be in three buildings, instead of one or two, and the number of beds is reduced from 1,222 to 1,100;
  
  o The assisted living “Senior Housing” component is increased from 116 to 120 units;
  
- The single IPS is now contemplated to be partially owned by the City, only to extent that parts will be freely open to the public, subject to Public Service’s letter of intent process whereby a developer constructs infrastructure to our standards with the agreement that they deed it to us when complete.

- The definitions of what may be public were expanded to reflect the items that would become ours through letter of intent already.

- The bonding section was amended to clarify that the Developer is the one doing bonding, not the City. This was overlooked previously, and all parties agreed it needed to change regardless of other amendments; it should have come out when our bonding obligation was eliminated.

- The cap on developer’s tax exempt bonding, formerly our bonding, was removed. Instead of being capped at $10.7MM, it is now set at whatever amount ultimately qualifies for tax exempt bonds as determined by LBRA and its bond counsel. This is a legal analysis that is already underway and fluid based on whatever will be “public” after final drawings are completed. Still no City bonding.

- The fiscal year for developer’s application to MCRP through MEDC was changed from last year to this year.
- Finally, the exhibits that show that overhead map (C-1), the spreadsheet of each component of the project (C-2), and the project schedule (D) have been updated/replaced to reflect the changes in the project. Those are attached to the Seventh Amendment that is on file.

Hopefully that responds to the question posed. If there are any further questions, or clarification sought, we are happy to provide it.

Sincerely,

Gregory S. Venker

THIS AMENDED AND RESTATED REAL ESTATE PURCHASE AND DEVELOPMENT AGREEMENT (this “Agreement”) is made and entered into as of the ___ day of __________, 2018, by and between the CITY OF LANSING, a Michigan municipal corporation (the “City”) and CONTINENTAL/FERGUSON LANSING, LLC, a Delaware limited liability company (“Developer”). The City and Developer are individually each a “Party” and collectively the “Parties.”

RECITALS

A. The City, Developer, the Lansing Economic Development Corporation ("LEDC"), the Lansing Brownfield Redevelopment Authority ("LBRA"), Joel Ferguson ("Ferguson"), and Frank Kass ("Kass") entered into that certain Real Estate Purchase and Development Agreement dated November 6, 2014 (the “November 2014 Agreement”).

B. The City is a municipal corporation organized and existing under and pursuant to the Michigan Home Rule Cities Act, 1909 PA 279, as amended (M.C.L. §§ 117.1 et seq.), and exercising all of the powers provided for therein and pursuant to Lansing City Charter, approved August 8, 1978, and as subsequently amended.

C. Developer is a Delaware limited liability company authorized to do business in Michigan.

D. By entering into this Agreement, the City and Developer desire to amend and restate the terms of the November 2014 Agreement and, in so doing, remove LEDC, LBRA, Ferguson, and Kass as parties to the Agreement.

E. The City owns the following parcels of real property:

1. The approximately 35.57-acre parcel described on Exhibit A-1 attached hereto and made a part hereof (the “Purchase Property”), which consists of the following:
   a. The approximately 30.77-acre parcel described on Exhibit A-1-A attached hereto and made a part hereof (the “Red Cedar Property”);
   b. The approximately 1.52-acre parcel described on Exhibit A-1-B attached hereto and made a part hereof (the “Supplemental Parcel”);
   c. The approximately 3.28-acre parcel described on Exhibit A-1-C attached hereto and made a part hereof (the “Corner Parcel”); and

2. The approximately 19.90 acre parcel described on Exhibit A-2 attached hereto and made a part hereof (the “Park Property”).

F. The voters of the City, by ballot proposals on November 8, 2011, and November 6, 2012, authorized the City to sell the Red Cedar Property and the Supplemental Parcel.
G. Developer desires to purchase the Red Cedar Property, Supplemental Parcel, and Corner Parcel (collectively, the “Purchase Property”) from the City.

H. The City desires that Developer purchase and develop the Purchase Property as a mixed-use project, including an infrastructure of roads and utilities, and construct certain improvements on the Park Property, as provided herein (the “Project”).

I. On November 25, 2015, the City and Developer entered into a Real Estate Purchase Agreement (the “Sparrow Health Purchase Agreement”) to sell the Corner Parcel and Supplemental Parcel to Edward R. Sparrow Hospital Association (“Sparrow Health”). The Sparrow Health Purchase Agreement, as amended, has expired and is of no further force or effect.

J. The Red Cedar Property and the Park Property are located in a floodplain and floodway and may be the subject of environmental contamination (collectively, the “Preexisting Conditions”). Because these Preexisting Conditions may inhibit and directly affect development of the Red Cedar Property and the construction of certain improvements on the Park Property, certain infrastructure improvements and remediation at additional costs will be required to address the Preexisting Conditions, as set forth in this Agreement.

K. The Purchase Property is located within the Montgomery Drainage District, which is a drainage district within the meaning M.C.L. § 280.5. The City has requested the Ingham County Drain Commissioner undertake a proposed drain project on the Montgomery Drain of the Montgomery Drainage District, and it is the expectation of the parties that any and all action taken in relation to such proposed drain project will be consistent with the Drain Code of 1956, M.C.L. §§ 280.1, et. seq.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants, promises and agreements contained herein, the Parties agree as follows:

ARTICLE 1
SALE AND PURCHASE TERMS

1.1 SALE. Subject to the City’s governing body approving this Agreement, the City agrees to sell to the Developer, and the Developer agrees to purchase from the City, the Purchase Property subject to the terms and conditions set forth herein.

1.2 PURCHASE PRICE. Developer shall pay to the City for the Purchase Property the stipulated purchase price of Two Million Two Hundred Twenty One Thousand Six Hundred Seventy and 00/100 Dollars ($2,221,670.00) (the “Purchase Price”), which amount shall be paid at the Closing in full by wire transfer or cashier’s check of immediately available funds.
1.3 DUE DILIGENCE

1.3.1 TITLE.

(a) Developer acknowledges that it has had the opportunity to review a title commitment prepared by Fidelity National Title Insurance Company (the “Title Company”) for the Red Cedar Property and Supplemental Parcel identified as Commitment No. 16-110260 (the “Commitment”) and hereby accepts title to the Red Cedar Property and Supplemental Parcel subject to the matters of record, exceptions and restrictions identified therein. Subject to the removal of the right of reverter and the release of State of Michigan’s subsurface rights to the Corner Parcel, Developer shall accept title to the Corner Parcel in the condition that exists as of this date. In the event the City is unable or unwilling to obtain the release of the State of Michigan subsurface rights on or before May 1, 2018, Developer agrees to accept the Corner Parcel at closing subject to said reservation.

(b) The Title Company, and the Title Policy will be issued with standard exceptions (except for any survey exception that Developer removes by providing a survey to the Title Company).

1.3.2 ACCESS. At all times prior to the Closing during the term of this Agreement, upon not less than two (2) business days prior notice to the City, Developer, its agents and representatives, shall be entitled to inspect, examine, review, consider and investigate the Purchase Property and Park Property and all matters relating thereto. If, as a result of Developer’s exercise of its rights under this Section 1.3.2, any damage or physical change occurs to the Purchase Property, Park Property, or adjoining lands, then Developer shall promptly repair such damage or return such property to its original condition, at Developer’s sole cost and expense, so as to return any property so damaged to substantially the same condition as existed prior to such damage or physical change and such obligation shall survive the termination or expiration of this Agreement. Developer shall furnish evidence of liability insurance of Developer and Developer’s contractors in amounts reasonably acceptable to the City prior to entry on the Purchase Property or Park Property.

1.4 CONDITION OF PROPERTY. Except as expressly set forth in this Agreement and those required to be given under the deed, it is understood and agreed that City is not making and has not at any time made any warranties or representations of any kind or character, expressed or implied, with respect to the Purchase Property and such investigations of the Park Property, for work performed by Developer on the Park Property, including, but not limited to, any warranties or representations as to habitability, merchantability, fitness for a particular purpose, title, zoning, tax consequences, soil conditions, subsurface conditions, latent or patent physical or environmental conditions, conditions for flooding, utilities, operating history, valuation, governmental approvals, the compliance of the property with governmental laws, the truth, accuracy or completeness of the property documents, or any other matter or thing regarding the Purchase Property or Park Property. Developer acknowledges and agrees that upon closing City shall sell and convey to Developer and Developer shall accept the Purchase Property “as is, where is, with all faults”, except to the extent expressly provided otherwise in this Agreement. Developer has not relied and will not rely on, and City is not liable for or bound by, any expressed or implied warranties, guaranties, statements, representations or information pertaining to the property or
relating thereto made or furnished by City or any agent representing or purporting to represent City, to whomever made or given, directly or indirectly, orally or in writing, unless specifically set forth in this Agreement. Developer represents to City that Developer has conducted, or will conduct prior to closing, such investigations of the Purchase Property and Park Property, including but not limited to, the physical and environmental conditions thereof, as Developer deems necessary to satisfy itself as to the condition of the property and the existence or nonexistence or curative action to be taken with respect to any hazardous or toxic substances on or discharged from either property, and will rely solely upon same and not upon any information provided by or on behalf of City or its agents or employees with respect thereto, other than such representations, warranties and covenants of City as are expressly set forth in this Agreement in Article 4. Upon closing, Developer shall be deemed to have waived, relinquished and released City from and against any and all claims, demands, causes of action, in law or in equity (including but not limited to causes of action in tort and contract), losses, damages, liabilities, costs and expenses (including attorneys’ fees and court costs) of any and every kind or character, known or unknown, which Developer might have asserted or alleged against City at any time by reason of physical conditions or violations of any applicable laws (including, without limitation, any environmental laws) relating to the Purchase Property or for work performed by Developer on the Park Property.

ARTICLE 2

Fund”) associated with the Project until such amount deposited equals the maximum annual principal and interest on the GO Bonds; then, This section is intentionally left blank.

(f) Notwithstanding Section 7.3.5(e), in the event a disbursement out of the Retained Obligation Fund is made, or in a prior year the tax capture did not satisfy the 20% amount identified in 7.3.5(e), then an amount shall be deposited into the Retained Obligation Fund so that it is equal to the amount the Retained Obligation Fund would otherwise have held if a disbursement had not occurred or the prior year tax captures had satisfied the 20% amount identified in 7.3.5(e); This section is intentionally left blank.

(g) Revenue Bonds shall be paid in an amount not to exceed their annual debt service;

(h) Additional Funding may be paid by additional funds captured, including amounts remaining in the Retained Obligation Fund after the full repayment of the amount owed to the MEDC Brownfield Redevelopment Fund identified in 7.3.5 (a), the LBRA administration costs identified in 7.3.5 (b), the amount owed to the Local Site Remediation Revolving Fund (LSRRF) identified in 7.3.5 (c), the GO Bonds, TE Bonds, and the Revenue Bonds to reimburse the Developer for the costs of eligible activities identified and approved by the City and MSF in the Brownfield Plan and the Act 381 Plan not paid for by the issuance of the GO Bonds, TE Bonds or Revenue Bonds.; then

Notwithstanding the foregoing primary priority of funding, if the application of the first priority, after consideration of any funds in the Retained Obligation Account, leaves insufficient funds to cover the next twelve months of LBRA Bond payments, then in such event the allocation percentage shall be adjusted so that LBRA shall receive sufficient funds to make the next twelve months of principal and interest payments on the LBRA Bonds.

7.3.6 CONSTRUCTION CONTRACTS. The City shall be a party to all construction contracts for which it is contemplated that any services performed or materials supplied will be funded in full or in part by proceeds of the LBRA Bonds which contracts shall provide the City the same rights as those provided to the Developer.

8.3.2 In the event the City terminates this Agreement, the Developer shall be financially responsible for all work performed by or on behalf of the Developer with respect to the Project or the Purchase Property prior to termination.

8.4 POST-CLOSING REMEDIES. If either Party hereto is in default of its obligations under this Agreement after expiration of the applicable cure period(s) provided in Section 8.1, then the Non-Defaulting Party may seek all rights and remedies available at law, in equity, or in this Agreement to enforce all Parties’ rights and obligations under this Agreement. To the extent permitted by law, the parties agree that the jurisdiction and venue for any action brought to enforce rights or obligations under this Agreement shall be solely in the State Courts in Ingham County, Michigan, and that the applicable laws, should any choice of law arise, shall be those of the State of Michigan.

8.5 BANKRUPTCY BY DEVELOPER. If at any time prior to Completion of Construction, Developer becomes insolvent, or shall make a transfer in fraud of creditors, or shall make an assignment for the benefit of creditors, shall file a petition in bankruptcy, shall voluntarily be adjudicated insolvent or bankrupt or shall admit in writing the inability to pay debts as they mature, shall petition or apply to any tribunal for or shall consent to or shall not contest the appointment of a receiver, trustee, custodian or similar officer for Developer or for a substantial part of the assets of Developer, or shall commence any case, proceeding or other action under any bankruptcy, reorganization, arrangement, readjustment or debt, dissolution or liquidation law or statute of any jurisdiction, whether now or hereafter in effect, such an event shall be deemed an Event of Default as to the Developer only. Such event shall not be subject to the grace period provisions of Section 8.1.

8.6 DISSOLUTION OF DEVELOPER. Any dissolution, termination, or partial or complete liquidation of Developer prior to Completion of Construction shall be deemed an Event of Default as to the Developer only. Such event shall not be subject to the grace period provisions of Section 8.1.

8.7 FAILURE TO COMPLY WITH CONSTRUCTION SCHEDULE. The Developer agrees to complete such portions of the Project in a manner, consistent with the Project Schedule, that such portions will be placed upon the property tax rolls by the City’s Assessor and generate
payment of property taxes for payment of the LBRA Bonds in accordance with the Approved Brownfield Plan. In the event there is a delay in completion of such portions of the Project that result in a deficiency for payment of property taxes for repayment of the LBRA Bonds, then the Developer will upon demand from the City immediately pay such deficiency and continue to pay such deficiency until such portions of the Project have been completed and generate property taxes sufficient to pay the LBRA Bonds.

ARTICLE 9
INDEMNIFICATION

Developer agrees to indemnify and hold harmless the City, LEDC, LBRA, and Lansing Economic Area Partnership and their agents and employees (collectively, the “Indemnified Parties”, each an “Indemnified Party”) from any liabilities, obligations, losses, damages, penalties, claims, charges or expenses, including attorney's fees, that arise from any negligence or misrepresentation on the part of Developer or its agents, and on account of the Indemnified Party’s reliance thereon, and any personal injury, death or property damage that are caused by the intentional acts or omissions or negligence of Developer or its duly authorized agents. In the event any action or proceeding shall be brought against an Indemnified Party by reason of any claim covered hereunder, the Indemnified Party shall have the right to resist and defend the same with counsel of its choosing, and Developer shall pay the costs of such defense. The provisions of this Section shall survive the Closing or termination of this Agreement and remain in full force and effect until the City's Go-Bond proceeds TE Bond obligations are retired or otherwise paid in full.

ARTICLE 10
RESTRICTIONS ON ASSIGNMENT AND TRANSFER

The Developer may pledge, mortgage or grant a security interest in the Purchase Property for purpose of gaining financing necessary to enable the Developer or approved successor in interest to the Purchase Property to perform its obligations with respect to making improvements under this Agreement. The Developer may also transfer a portion of the Purchase Property to an entity controlled by related parties to the Developer or a member of the Developer, and the Developer may transfer a portion of the Purchase Property for the operation of a Hotel, Assisted Living Facility, Non-Student Housing, Student Housing, or other uses authorized by this Agreement so long as the recipient of such a transfer agrees, in its written purchase agreement with Developer, to construct and own buildings on the Purchase Property consistent with the terms of this Agreement. The Plans and Specifications for all buildings and construction on the Purchase Property shall remain subject to the terms of this Agreement. In the event of any action or transfer under this paragraph, the Developer will promptly notify the City in writing, and will continue to be responsible for keeping the transferred portion of the Purchase Property in compliance with the terms of this Agreement.

Within ten (10) days of the Effective Date, Developer will deliver to the City an organizational chart illustrating the corporate relationships among Developer and its members (each a “Member”) and identifying each Member’s percentage of ownership in Developer (the “Member Information Report”). After delivery of such Member Information Report until Completion of Construction, Developer shall, at least fifteen (15) days in advance of executing any instrument effecting any proposed change in the identity of the Members, provide the City with notice of any and all proposed changes whatsoever in the identity of the Members. Any transfer, individually or in combination with any other transfer following the date of the first Member Information Report, of more than Forty percent (40%) of the membership interests of the Developer shall be ineffective without the City’s advance written consent. 12.17 APPLICABLE LAW. This Agreement shall be governed in all respects, whether as to validity, construction, performance and otherwise, by the laws of the State of Michigan.

12.18 BROKERS. The City warrants to the Developer that the City has not taken any action in connection with this transaction which would result in any real estate broker’s fee, finder’s fee, or other fee being due or payable to any party. The Developer warrants to the City that the
