RESOLVED BY THE CITY COUNCIL OF THE CITY OF LANSING

SNOW AND ICE REMOVAL ASSESSMENT ROLL WINTER 2018-19

WHEREAS, pursuant to Chapter 1020.06, Snow and Ice, adopted by this Council, the City Assessor has completed the assessment roll for removal of snow and/or ice adjacent to certain properties within the City, which roll is attached to this resolution and made a part hereof.

WHEREAS, the owners of these properties were given proper notice in accordance with Chapter 1020.06(c)(1) to remove the snow and/or ice from the public sidewalk adjacent to their property.

WHEREAS, the City incurred costs for the removal of snow and/or ice, which it is required to recover in accordance with Chapter 1020.06(c) (2).

WHEREAS, pursuant to Chapter 1020.06, the fees for those costs were adopted by Council.

WHEREAS, those costs incurred between November 1, 2018 and April 30, 2019, by the City total $11,589.00.

NOW, THEREFORE, BE IT RESOLVED the Lansing City Council will hold a public hearing on Monday, July 8, 2019 at 7:00 PM, in the Council Chambers, to review, prior to confirmation, said assessment roll; and

BE IT FURTHER RESOLVED, that the City Clerk is hereby requested to give due notice of this public hearing as provided by Chapter 1026, Section 1026.06(b) and (c), of the Code of Ordinances by publishing a notice of a public hearing in a daily newspaper of the City, not more than twenty days and not less than ten days before such public hearing. In addition, the Clerk shall give notice of hearings in special assessment proceedings to each owner of, or party in interest in, property to be assessed, whose name appears upon the last local tax assessment records, by first class mail addressed to such owner or party at the address shown on the tax records, at least ten days before the date of such hearing. Said notices shall include the time and place of the hearing; a description of the properties determined by the Director of Public Service to have violated Chapter 1020.06 which are contained in the special assessment roll; where the special assessment roll is on file with the City Clerk and may be examined at the City Clerk’s office;

BE IT FURTHER RESOLVED, that any person aggrieved by the assessments as contained in the special assessment roll, or the necessity of the removal of snow and ice, may file a written objection thereto which must be delivered to the City Clerk prior to the close of the hearing, or the person may appear and protest the same at the public hearing in person or by his or her representative; that the appearance and protest or
written protest in the manner described is required if the person desires to appeal the amount of the assessment to the Michigan Tax Tribunal;

BE IT FINALLY RESOLVED, that pursuant to the requirement of 1962 PA 162, as amended, a written appeal of the Special Assessment may be made to the Michigan Tax Tribunal, 611 West Ottawa St., P.O. Box 30232, Lansing, MI 48909; if filed within thirty days after confirmation of the special assessment roll and if the Special Assessment was protested at this hearing.

Section 2. All ordinances or parts of ordinances inconsistent with the provisions hereof are hereby repealed.

Section 3. This ordinance was duly adopted by the Lansing City Council on _________, 2019, and a copy is available in the office of the Lansing City Clerk, 9th Floor, City Hall, 124 W. Michigan Avenue, Lansing, MI 48933.

Section 4. This ordinance shall take effect on the 30th day after enactment.
May 17, 2019

The Planning Board voted unanimously to recommend “A” Residential zoning for the property at 11097 Jolly Highway and “E-2” Local Shopping District zoning for the properties at 4820, 4848, 4880, 4902, 5030, 5050 & 5058 S. Waverly Road.
Zoning of Annexed Properties

11097 Jolly Hwy. & 4820, 4848, 4880, 4902, 5030, 5050 & 5058 S. Waverly Road

Location & Use

On November 6, 2018, 8 contiguous parcels of land located at the northwest corner of S. Waverly Road & Jolly Highway were annexed into the City of Lansing from Delta Township. There is a single family residential dwelling on the property at 11907 Jolly Highway. The other 7 parcels, all of which have frontage on S. Waverly Road, are being used for various commercial purposes as follows:

- 4820 S. Waverly Road: Quicky convenience store
- 4848 S. Waverly Road: Vacant multi-tenant commercial building
- 4880 S. Waverly Road: Vacant commercial building
- 4902 S. Waverly Road: Vacant restaurant building
- 5030 S. Waverly Road: Savemore Meat & Dairy Market
- 5050 S. Waverly Road: Vacant commercial building
- 5058 S. Waverly Road: Family Dollar retail store

Zoning Ordinance Provisions

Section 1246.03 of the City of Lansing Zoning Ordinance describes the procedures for zoning land that has been annexed into the City:

(a) All territory which is annexed to the City shall be given an interim zoning by the Planning Division with a district enumerated in Section 1246.01, which most closely resembles the zoning which the territory maintained prior to annexation. Such interim zoning shall only be in effect until the rezoning pursuant to subsection (b) hereof is completed.

(b) The Planning Board shall, within 180 days after the territory is annexed, and pursuant to the procedures described in Section 1240.04, review and recommend to Council the appropriate zoning of the territory, with consideration being given to the existing land use and the land use policies of the Comprehensive Plan. This section shall not preclude a person from at any time seeking a boundary amendment pursuant to Section 1240.04.
All of the above-referenced properties were zoned commercial under the Delta Township Zoning Ordinance except for 11907 Jolly Highway which was zoned “Very Low Density Residential”. Pursuant to paragraph (a) above, the interim zoning for 11907 Jolly Highway is “A” Residential. The other 7 parcels have an interim zoning classification of “F” Commercial. These are the zoning designations in the City that most closely match the zoning that the subject properties had when they were located in Delta Township.

**Master Plan Designation**

The City of Lansing Master Plan designates the Jolly/Waverly intersection for “Neighborhood Mixed-Use Center” land use. The Plan describes the purpose of this designation as:

“To encourage the location of convenience retail and services within walking distance of neighborhoods.”

The Plan lists the following as typical uses for this designation:

“Retail, personal services, office, live-work and residential. Automobile-oriented uses not permitted.”

The City’s Master Plan is not parcel specific and does not cover the entire area that was annexed into the City as it was in Delta Township at the time that the Plan was written. Based on the future land use map pattern for the area, however, it appears that the intent is to designate the commercial properties at or near the Jolly/Waverly intersection for Neighborhood Mixed-Use Center land use but not to extend this designation/future land use into the adjoining residential areas.

**Zoning Designations**

The interim zoning designation of “A” Residential for the single family residential property at 11907 Jolly Highway is appropriate and should be made permanent. The property contains a single family residential dwelling which is a use that is permitted by right in the “A” Residential zoning district.

The interim zoning of the commercial properties is “F” Commercial as that is the zoning designation that most closely matches the zoning of the properties when they were in Delta Township. As depicted on the attached zoning map, the properties at the southeast and southwest corners of the Jolly/Waverly intersection are zoned “F”
Commercial. The property at the northeast corner of the intersection is zoned “E-2” Local Shopping district. The Zoning Ordinance describes the intent of the 2 zoning districts as follows:

“E-2” Local Shopping District: “The intent of the E-2 Local Shopping District is to provide convenience retail stores.”

“F” Commercial District: “The intent of the F and F-1 Commercial Districts is to allow general retail commercial uses.”

The “E-2” zoning district permits “convenience” retail stores which are the type of stores that draw their customer base from a relatively small geographic area surrounding the business. The “F” Commercial district, by contrast, permits uses such as vehicles sales, theaters, medical marijuana dispensaries, motels/hotels and “comparison” retail stores that draw their customer base from a much larger geographic area. A Rite Aid pharmacy, for example, is a “convenience” retail store whereas, a Target store is a comparison retail store. It is unlikely that someone would travel from north Lansing to shop at a Rite Aid pharmacy on S. Waverly Road as there would be a more convenient pharmacy located much closer to the customer’s location of origin. It is likely, however, that someone would travel from north Lansing to visit the Target store on Edgewood Blvd. as one can obtain merchandise from Target that are not necessarily available from stores closer to their location of origin. All of the existing businesses located within the annexed area would be permitted by right in the “F” Commercial district and since they are all “convenience” type uses, they would also be permitted by right in the “E-2” Local Shopping district.

Based on the following findings, the “A” Residential zoning, which is the interim zoning designation, is the most appropriate zoning for the property at 11907 Jolly Highway:

* The “A” Residential zoning is consistent with the “very low density residential” zoning designation that the property had while it was located in Delta Township.

* The subject property contains a single family residential dwelling which is a use that is permitted by right in the “A” Residential zoning district and therefore, the use will conform to the zoning district in which it will be located.
The two zoning designations that merit consideration by the Planning Board for the zoning of the properties at 4820, 4848, 4880, 4902, 5030, 5050 & 5058 S. Waverly Road are the “E-2” Local Shopping district and the “F” Commercial district. The following findings are offered for the Board to take under advisement in making its recommendation to the City Council on the zoning of these properties:

* The “F” Commercial district has been assigned as the interim zoning designation of the properties as it is the zoning that most closely matches the zoning that the properties had in Delta Township prior to annexation into the City.

* The uses currently located on the subject properties are permitted by right in both the “F” Commercial & the “E-2” Local Shopping districts and thus, no nonconformities will be created under either zoning designation.

* The parcel of land at the northeast corner of the Jolly/Waverly intersection is zoned “E-2” Local Shopping district and the properties at the southeast and southwest corners are zoned “F” Commercial. Neither zoning designation for the subject properties will therefore, create a “spot zoning” situation which is typically considered to be an unacceptable planning and zoning practice.

* The “E-2” Local Shopping district is the most appropriate zoning designation to facilitate the future land use pattern being advanced in the Master Plan for the Jolly/Waverly intersection which is to: “encourage the location of convenience retail and services within walking distance of neighborhoods.” The primary distinction between the two zoning districts being offered for consideration is that, in contrast to the “F” Commercial district, the “E-2” Local Shopping is restricted to “convenience” type uses.

Owner: Craig DeVoogd

Property: 4880 S. Waverly Road, Lansing, Michigan 48911

Current Zoning: “F” Commercial

Background:

My property is a 2.5 acre lot and is the site of a 10,536 square foot building. The main building was constructed in 1972, and additions to the building were constructed in 1996 and 1997. The Property is currently zoned as “F” Commercial on an interim basis. I purchased the Property at auction in 2014 after the prior owner was placed into a court-ordered receivership. Before my purchase, a “Pay Day Advance” store and Pawn Shop was operated on the Property. Since purchasing the Property, I have renovated the building and unsuccessfully attempted to lease the Property for commercial uses. The Property has been vacant since 2012. It’s current state is vacant and currently listed for sale or lease thru Remax commercial reality, (at below market rates.)

Prior to the annexation process, a potential business owner had expressed interest in the property and had discussions with the city planning dept. reference a business involved in the medical marijuana industry. Since that conversation, the “business plan” has been taken off the table. The business entity has cancelled all plans for purchasing the building and has explored other opportunities outside of the City of Lansing. Currently there is no interest whatsoever, by any entity purchasing or leasing the property.
Preliminary Statement Regarding Intensity of Uses

If a change is approved, the Property may be used for certain purposes as a matter of right, as set forth in the Zoning Ordinance. I submit that the uses permitted by right in the Wholesale District are relatively low-impact uses (such as clinic, child care facility and wholesale establishments). The city retains control over granting or denying any special land use permits for the Property.

Analysis

I. Review of Factors

1. A change is consistent with the goals, policies, and uses proposed for the subject parcel in Lansing’s, “Design Lansing’s” Comprehensive Plan.

   a. The Comprehensive Plan observes that some retail properties are in decline and are prime candidates for redevelopment. Specifically, “Priority Issues” Pg. 50, emphasizes “Transforming strip commercial corridors.” The plan describes typical strip commercial development that represent a negative image to the city and to neighborhoods. This same priority applies to the area in which my property is located, as evidenced by the ongoing vacancy of the building and surrounding properties. The comprehensive plan emphasizes a transformation to a “non-retail use”.

   b. Comprehensive plan (page 53) states that strip commercial retail along corridors are experiencing “increased vacancies”. The plan states that Lansing is currently “over zoned” for this type of development and recommends a move towards non retail uses.

   c. Comprehensive plan (page 79) states an objective of, “Improving Lansing’s gateway streets to enhance first impressions, expand housing options and provide sites for job-oriented uses by encouraging the restructuring of strip commercial development.” The plan specifically identifies gateways north of Jolly Road to “encourage a gradual transition to non-retail development”.

2. A change towards uses other than retail is justified by a change in conditions or by an error in the original ordinance.
a. The area in which the Property is located no longer supports primarily commercial uses. This is evidenced by the following:

i. Of the seven commercial properties in this corridor, Eaton County has issued 32 certificates of foreclosure for unpaid property taxes in the last 15 years.

ii. Currently, the two properties to the north and the property immediately to the south face a combined $33,000 in unpaid property taxes – meaning that all three will face tax forfeiture in the next few months.

iii. The current vacancy rate in this commercial corridor is 57%, with three parcels having been vacant for many years. Recent public corporate announcements indicate the ‘Family Dollar’ store within this corridor is in jeopardy of also closing. This would further escalate the vacancy rate to an unbelievable 71%.

iv. In the last 10 years, nine commercial businesses have opened and failed.

b. It is clear from the trend of failing commercial businesses that this corridor can no longer sustain commercial uses. A change moving the Property away from a retail emphasis is therefore necessary to allow for productive use of the Property.

3. The Property does not possess natural features or environmental characteristics that would be significantly adversely impacted by the uses other than retail.

a. There are no natural features or environmental characteristics that would be significantly adversely impacted by using the Property for wholesale/ warehousing purposes, for example. To the contrary, the Property is well suited for wholesale/warehousing uses both in size (2.50 acres) and terrain (relatively flat).

b. A proposed change to G Wholesale for example would:

i. promote and protect the public health, safety, and general welfare by allowing for additional uses in a suitable area of the City.

ii. A change would protect the character and stability of the area and promote the orderly and beneficial development of such area by allowing for a beneficial use of a building that has sat vacant for years.
iii. The use would provide adequate light, air, privacy, and convenience of access to property.

iv. A change is consistent with the intensity of uses in the area and would not impede open spaces surrounding buildings and structures that are necessary to provide adequate light and air and to protect the public health.

v. The use would not adversely impact congestion on public highways and streets.

vi. The use would not adversely impact the Cities ability to provide for transportation systems, sewage disposal, water, energy, recreation, and other public service and facility requirements.

vii. A change would allow the Property to be used in accordance with its character.

viii. A change would not result in an improper use of land.

ix. The use would comply with the Cities building standards.

x. The use would not be incompatible with the character of development or the uses, buildings or structures permitted within specified zoning districts.

1. As discussed above, the uses permitted by right in the Wholesale District are low impact, such that they will not adversely impact neighboring properties. As also discussed above, the character of the corridor has changed in recent years, with many commercial businesses having failed and commercial properties facing long-term vacancy and tax foreclosure.

xi. The use would not present a risk of fire, explosion, noxious fumes and odors, heat, dust, smoke, glare, noise, vibration, radioactivity, and other nuisances and hazards.

xii. The use would not result in overcrowding of the land or undue concentration of buildings or structures.

xiii. The use would not present any hazards to life or property.
4. The uses allowed under the wholesale district would be equally or better suited to the area than uses allowed under the current zoning.

   a. A wholesale district use is equally suited to the area as uses allowed under the current zoning. The economy over the last several years has not supported commercial development of the Property, as discussed above and as further evidenced by (1) the failure of the prior commercial operation, which was placed into a court-ordered receivership; and (2) the owners diligent but unsuccessful efforts to lease the Property for commercial purposes since 2014. I believe I can successfully lease or sell the Property for wholesale uses. The impact of an wholesale use permitted by right is comparable to the impact of a commercial use and, indeed, would likely generate less traffic than a commercial use.

5. The City is able to provide services, infrastructure, and facilities that may be required if a change were made.

   a. The proposed use would not require new or different services, infrastructure, or facilities from the City, and thus would have no impact on the services provided by the City.

For these reasons, I respectfully request that a zoning change be approved, in order to permit additional uses consistent with a wholesale district. Such additional uses could include a trade or vocational school, child care facility, clinic, or wholesale businesses.

Respectfully submitted,

Craig DeVoogd

SUBJECT: Sole Source – Thermo Fisher Scientific - True Narc

The Lansing Police Department requests that Thermo Fisher Scientific be designated as a Sole Source vendor for True Narc Substance Testing Device.

Please see the attached letter from Chief Mike Yankowski regarding the request.

Based on the attached letter we recommend issuing a sole source purchase order to Thermo Fisher Scientific in the amount of $52,050.50 from Byrne JAG grant per the request of the Lansing Police Department.

Date: 5-15-19

Approved X Denied ___

Andy Schor, Mayor
Date: April 18, 2019

The Lansing Police Department is currently using a Thermo-Scientific Tru Narc substance testing device in its daily operations. The device is housed with the Lansing Police Special Operations Section and is used to perform testing on suspected narcotics. This hand held device uses Raman Spectroscopy to identify the substance and, as such, requires no or limited physical manipulation of the substance. This aspect allows for officers to test and identify the substance without risking an exposure. Due to the frequent use, success of the unit, acceptance of results at the 54A court as well as the implementation of the devices at crime labs statewide, Lansing Police sought and received a Byrne JAG grant through the State of Michigan to purchase two additional Thermo-Scientific Tru Narc units. The grant was presented and approved by City Council.

The devices are purchased directly from the manufacturer and they do not allow for State or Local government GSA pricing. As such, the quote (and award) for the two new units is $52,050.50. A Sole Source purchase would allow the department to train all officers (regardless of whether assigned to narcotics or patrol) with the ability to utilize the same device. The current unit has performed well and the company has been responsive to our needs. Deploying the same equipment also helps with the system updates such as the substance material library. For the reasons outlined above, I am requesting permission to purchase two (2) Thermo-Scientific Tru Narc devices through the Byrne JAG grant for the Lansing Police Department.

Thank you for your assistance with this matter,

Mike Yankowski, Chief of Police

When applicable, commodities, technology, or software to be provided in furtherance of this order shall be exported from the United States in accordance with applicable U.S. export laws or regulations. Diversion contrary to US law prohibited. Unless otherwise agreed to in writing, Thermo Scientific Portable Analytical Instruments Inc. terms and conditions shall apply and take precedence.
1. GENERAL. Thermo Scientific Portable Analytical Instruments Inc. ("Seller") hereby offers for sale to the buyer ("Buyer") the products listed on the face hereof (the "Products") on the express condition that Buyer agrees to accept and be bound by the terms and conditions set forth herein. Any provisions contained in any document issued by Buyer are expressly rejected and if the terms and conditions in this Agreement differ from the terms of Buyer's offer, this document shall be construed as a counter offer and shall not be effective as an acceptance of Buyer's document. Buyer's receipt of Products or Seller's commencement of the services provided hereunder will constitute Buyer's acceptance of this Agreement. This is the complete and exclusive statement of the contract between Seller and Buyer with respect to Buyer's purchase of the Products. No waiver, consent, modification, amendment or change of the terms contained herein shall be binding unless in writing and signed by Seller and Buyer. Buyer's failure to object to terms contained in any subsequent communication from Buyer will not be a waiver or modification of the terms set forth herein. All orders are subject to acceptance in writing by an authorized representative of Seller.

2. PRICE. All prices published by Seller or quoted by Seller's representatives may be changed at any time without notice. All prices quoted by Seller or Seller's representatives are valid for thirty (30) days, unless otherwise stated in writing. All prices for the Products will be as specified by Seller or, if no price has been specified or quoted, will be subject to adjust on account of specifications, quantities, raw materials, costs of production, shipment arrangements or other terms or conditions which are not part of Seller's original price quotation.

3. TAXES AND OTHER CHARGES. Prices for the Products exclude all sales, value added and other taxes and duties imposed with respect to the sale, delivery, or use of any Products covered hereby, all of which taxes and duties must by paid by Buyer. If Buyer claims any exemption, Buyer must provide a valid, signed certificate or letter of exemption for each respective jurisdiction. Buyer shall be solely responsible for obtaining any and all necessary licenses, registrations, certificates, permits, approvals or other authorizations required by federal, state or local statute, law or regulation pertaining to the use or possession of the products contemplated herein that include radioactive isotopes, or x-ray tubes if any.

4. TERMS OF PAYMENT. Seller may invoice Buyer upon shipment for the price and all other charges payable by Buyer in accordance with the terms on the face hereof. If no payment terms are stated on the face hereof, payment shall be net thirty (30) days from the date of invoice. If Buyer fails to pay any amounts when due, Buyer shall pay Seller interest thereon at a periodic rate of one and one-half percent (1.5%) per month (or, if lower, the highest rate permitted by law), together with all costs and expenses (including without limitation reasonable attorneys' fees and disbursements and court costs) incurred by Seller in collecting such overdue amounts or otherwise enforcing Seller's rights hereunder. Seller reserves the right to require from Buyer full or partial payment in advance, or other security that is satisfactory to Seller, at any time that Seller believes in good faith that Buyer's financial condition does not justify the terms of payment specified. All payments shall be made in U.S. Dollars.

5. DELIVERY, CANCELLATION OR CHANGES BY BUYER. The Products will be shipped to the destination specified by Buyer, FOB Seller's shipping point. Seller will have the right, at its election, to make partial shipments of the Products and to invoice each shipment separately. Seller reserves the right to stop delivery of Products in transit and to withhold shipments in whole or in part if Buyer fails to make any payment to Seller when due, or otherwise fails to perform its obligations hereunder. All shipping dates are approximate and not guaranteed. Seller shall not be liable for any loss or damage resulting from any delay in delivery or failure to deliver which is due to any cause beyond Seller's reasonable control. In the event of a delay due to any cause beyond Seller's reasonable control, Seller reserves the right to terminate the order or to reschedule the shipment within a reasonable period of time; Buyer will not be entitled to refuse delivery or otherwise be relieved of any obligations as the result of such delay. Products as to which delivery is delayed due to any cause within Buyer's control may be placed in storage by Seller at Buyer's risk and expense and for Buyer's account. Orders in process may be canceled only with Seller's written consent and upon agreement of the parties as to an appropriate adjustment in the purchase price therefor. Credit will not be allowed for Products returned without the prior written consent of Seller.

6. TITLE AND RISK OF LOSS. Notwithstanding the trade terms indicated above and subject to Seller's right to stop delivery of Products in transit, title to & risk of loss to the Products will pass to Buyer upon delivery of possession of the Products by Seller to the carrier; provided, however, that title to any software incorporated within or forming a part of the Products shall at all times remain with Seller or the licensor(s) thereof, as the case may be.

7. WARRANTY. Seller warrants that the Products will operate or perform substantially in conformance with Seller's published specifications and be free from defects in material and workmanship, when subjected to normal, proper and intended usage by properly trained personnel, for the period of time set forth in the product documentation, published specifications or package inserts, the warranty period shall be one (1) year from the date of shipment to Buyer for equipment and ninety (90) days for all other products (the "Warranty Period"). During the Warranty Period, Seller agrees, in its sole discretion, to repair or replace Products and/or provide additional parts or services as reasonably necessary to cause the Products to perform in substantial conformance with said published specifications; provided that Buyer shall (a) promptly notify Seller in writing upon the discovery of any defect, which notice shall include the product model and serial number (if applicable) and details of the warranty claim; and (b) after Seller's receipt, Seller will provide Buyer with a Return Material Authorization ("RMA") which may include instructions for decontamination procedures and other product-specific handling instructions, then, if applicable, Buyer may return the defective Products to Seller with all costs prepaid by Buyer. Buyer further reserves the right, in its sole discretion, to extend any Warranty Period if at the time that the Warranty Period would otherwise expire, there are ongoing concerns regarding a Product's conformance to the warranty stated herein. Replacement parts may be new or refurbished, at the election of Seller. All replaced parts shall become the property of Seller. Shipments to Buyer of repaired or replacement Products shall be made in accordance with the Delivery provisions of the Seller's Terms and Conditions of Sale. Consumables are expressly excluded from this warranty. If Seller elects to repair defective medical device instruments, Seller may, in its sole discretion, replace a product loaner instrument to Buyer as necessary for use while the instruments are being repaired. Notwithstanding the foregoing, Products supplied by Seller that are obtained by Seller from an original manufacturer or third party supplier are not warranted by Seller, but Seller agrees to assign to Buyer any warranty rights in such Product that Seller may have from the original manufacturer or third party supplier, to the extent such assignment is allowed by such original manufacturer or third party supplier,
In no event shall Seller have any obligation to make repairs, replacements or corrections required, in whole or in part, as the result of (i) normal wear and tear, (ii) accident, disaster or event of force majeure, (iii) misuse, fault or negligence of or by Buyer, (iv) use of the Products in a manner for which they were not designed, (v) causes external to the Products such as, but not limited to, power failure or electrical power surges, (vi) improper storage and handling of the Products or (vii) use of the Products in combination with equipment or software not supplied by Seller. If Seller determines that Products for which Buyer has requested warranty services are not covered by the warranty hereunder, Buyer shall pay or reimburse Seller for all costs of investigating and responding to such request at Seller's then prevailing time and materials rates. If Seller provides repair services or replacement parts that are not covered by this warranty, Buyer shall pay Seller therefore at Seller's then prevailing time and materials rates.

ANY INSTALLATION, MAINTENANCE, REPAIR, SERVICE, RELOCATION OR ALTERATION TO OR OF, OR OTHER TAMPERING WITH, THE PRODUCTS PERFORMED BY ANY PERSON OR ENTITY OTHER THAN SELLER WITHOUT SELLER'S PRIOR WRITTEN APPROVAL, OR ANY USE OF REPLACEMENT PARTS NOT SUPPLIED BY SELLER, SHALL IMMEDIATELY VOID AND CANCEL ALL WARRANTIES WITH RESPECT TO THE AFFECTED PRODUCTS. THE OBLIGATIONS CREATED BY THIS WARRANTY TO REPAIR OR REPLACE A DEFECTIVE PRODUCT SHALL BE THE SOLE REMEDY OF BUYER IN THE EVENT OF A DEFECTIVE PRODUCT. EXCEPT AS PROVIDED HEREIN, SELLER DISCLAIMS ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, ORAL OR WRITTEN, WITH RESPECT TO THE PRODUCTS, INCLUDING WITHOUT LIMITATION ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. SELLER DOES NOT WARRANT THAT THE PRODUCTS ARE ERROR-FREE OR WILL ACCOMPLISH ANY PARTICULAR RESULT.

8. INDEMNIFICATION.

8.1. By Seller. Seller agrees to indemnify, defend and save Buyer, its officer, directors, and employees from and against any and all damages, liabilities, actions, causes of action, suits, claims, demands, losses, costs and expenses (including without limitation reasonable attorneys' fees) ("Indemnified Items") for (i) injury to or death of persons or damage to property caused by the negligent or willful misconduct of Seller, its employees, or agents or representatives or contractors, (ii) in connection with the performance of services at Buyer's premises under this Agreement and (iii) claims that a Product infringes any valid United States patent, copyright or trade secret; provided, however, Seller shall have no liability under this Section to the extent any such Indemnified Items are caused by either (i) the negligence or willful misconduct of Buyer, its employees, agents or representatives or contractors, (ii) by any third party, (iii) use of a Product in combination with equipment or software not supplied by Seller where the Product would not itself be infringing, (iv) compliance with Buyer's written specifications or instructions, (v) use of the Product in an application or environment for which it was not designed or (vi) modifications of the Product by anyone other than Seller without Seller's prior written approval. Buyer shall provide Seller prompt written notice of any third party claim covered by Seller's indemnification obligations hereunder. Seller shall have the right to assume exclusive control of the defense of such claim or, at the option of the Seller, to settle the same. Buyer agrees to cooperate reasonably with Seller in connection with the performance by Seller of its obligations in this Section.

Notwithstanding the above, Seller's infringement related indemnification obligations shall be extinguished and released if Seller, at its discretion and at its own expense (a) procures for Buyer the right, at no additional expense to Buyer, to continue using the Product; (b) replaces or modifies the Product so that it becomes non-infringing, provided the modification or replacement does not adversely affect the specifications of the Product; or (c) in the event (a) and (b) are not practical, refund to Buyer the amortized amounts paid by Buyer with respect thereto, based on a five (5) year amortization schedule. THE FOREGOING INDEMNIFICATION PROVISION STATES SELLER'S ENTIRE LIABILITY TO BUYER FOR THE CLAIMS DESCRIBED HEREIN.

8.2. By Buyer. Buyer shall indemnify, defend with competent and experienced counsel and hold harmless Seller, its parent, subsidiaries, affiliates and divisions, and their respective officers, directors, shareholders and employees, from and against any and all damages, liabilities, actions, causes of action, suits, claims, demands, losses, costs and expenses (including without limitation reasonable attorneys' fees and disbursements and court costs) to the extent arising from or in connection with (i) the negligence or willful misconduct of Buyer, its agents, employees, representatives or contractors; (ii) use of a Product in combination with equipment or software not supplied by Seller where the Product itself would not be infringing; (iii) Seller's compliance with designs, specifications or instructions supplied to Seller by Buyer; (iv) use of a Product in an application or environment for which it was not designed; or (v) modifications of a Product by anyone other than Seller without Seller's prior written approval.

9. SOFTWARE. With respect to any software products incorporated in or forming a part of the Products hereunder, Seller and Buyer intend and agree that such software products are being licensed and not sold, and that the words "purchase", "sell" or similar or derivative words are understood and agreed to mean "license", and that the word "Buyer" or similar or derivative words are understood and agreed to mean "licensee". Notwithstanding anything to the contrary contained herein, Seller or its licensor, as the case may be, retains all rights and interest in software products provided hereunder. Seller hereby grants to Buyer a royalty-free, non-exclusive, nontransferable license, without power to sublicense, to use software provided hereunder solely for Buyer's own internal business purposes on the hardware products provided hereunder and to use the related documentation solely for Buyer's own internal business purposes. This license terminates when Buyer's lawful possession of the hardware products provided hereunder ceases, unless earlier terminated as provided herein. Buyer agrees to hold in confidence and not to sell, transfer, license, loan or otherwise make available in any form to third parties the software products and related documentation provided hereunder. Buyer may not disassemble, decompile or reverse engineer, copy, modify, enhance or otherwise change or supplement the software products provided hereunder without Seller's prior written consent. Seller will be entitled to terminate this license if Buyer fails to comply with any term of condition hereof. Buyer agrees, upon termination of this license, immediately to return to Seller all software products and related documentation provided hereunder and all copies and portions thereof. Certain of the software products provided by Seller may be owned by one or more third parties and licensed to Seller. Thus, Seller and Buyer agree that such third parties retain ownership of and title to such software products. The warranty and indemnification provisions set forth herein shall not apply to software products owned by third parties and provided hereunder.

10. LIMITATION OF LIABILITY. LIMITATION OF LIABILITY. NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, THE LIABILITY OF SELLER UNDER THESE TERMS AND CONDITIONS (WHETHER BY REASON OF BREACH OF CONTRACT, TORT, INDEMNIFICATION, OR OTHERWISE, BUT EXCLUDING LIABILITY OF SELLER FOR BREACH OF WARRANTY (THE SOLE REMEDY FOR WHICH SHALL BE AS PROVIDED UNDER SECTION 7 ABOVE)) SHALL NOT EXCEED AN AMOUNT EQUAL TO THE LESSER OF (A) THE TOTAL PURCHASE PRICE THEREOF PAID BY BUYER TO SELLER WITH RESPECT TO THE PRODUCT(S) GIVING RISE TO SUCH LIABILITY OR (B) ONE MILLION DOLLARS ($1,000,000). NOTWITHSTANDING THE FOREGOING, ANYTHING TO THE CONTRARY CONTAINED HEREIN, IN NO EVENT SHALL SELLER BE LIABLE FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL OR INCIDENTAL DAMAGES (INCLUDING WITHOUT LIMITATION DAMAGES OF LOSS OF USE OF FACILITIES OR EQUIPMENT, LOSS OF REVENUE, LOSS OF DATA, LOSS OF PROFITS OR LOSS OF GOODWILL) REGARDLESS OF WHETHER SELLER (A) HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES OR (B) IS NEGIGENT.
11. EXPORT RESTRICTIONS. Buyer acknowledges that each Product and any related software and technology, including technical information supplied by Seller or contained in documents (collectively "Items"), is subject to export controls of the U.S. government. The export controls may include, but are not limited to, those of the Export Administration Regulations of the U.S. Department of Commerce (the "EAR"), which may restrict or require licenses for the export of Items from the United States and their re-export from other countries. Buyer shall comply with the EAR and all other applicable laws, regulations, laws, treaties, and agreements relating to the export, re-export, and import of any Item. Buyer shall not, without first obtaining the required license to do so from the appropriate U.S. government agency; (i) export or re-export any Item, or (ii) export, re-export, distribute, supply any Item to any restricted or embargoed country or to a person or entity whose is not permitted to participate in exports has been denied or restricted by the U.S. government. Buyer shall, if requested by Seller, provide Information on the end user and end use of any Item exported by the Buyer or to be exported by the Buyer. Buyer shall cooperate fully with Seller in any official or unofficial audit or inspection related to applicable export or import control laws or regulations, and shall indemnify and hold Seller harmless from, or in connection with, any violation of this Section by Buyer or its employees, consultants, or agents.

12. HAZARDOUS MATERIALS. Some Products may require special packaging, labeling, marking and handling. Carriers may add additional freight charges for the handling or transporting of these materials. The consolidating of such material with other Products may be prohibited. Additional freight charges will be billed per Seller's shipping terms. Be sure to advise Seller of shipping instructions for these hazardous materials to reduce your freight costs.

13. MEDICARE/MEDICAID REPORTING REQUIREMENTS. If Buyer is a recipient of Medicare/Medicaid funds, Buyer acknowledges that it has been informed of and agrees to fully and accurately account for, and report on its applicable cost report, the total value of any discount, rebate or other compensation paid hereunder in a way that complies with all applicable federal, state and local laws and regulations which establish "Safe Harbor" for discounts. Buyer shall make written request to Seller in the event Buyer requires additional Information from Seller in order to meet its reporting requirements. Buyer acknowledges that agreement to such reporting requirement was a condition precedent to Seller's agreement to provide Products and that Seller would not have entered into this Agreement had Buyer not agreed to comply with such obligations.

14. MISCELLANEOUS. (a) Buyer may not delegate any duties nor assign any rights or claims hereunder without Seller's prior written consent, and any such attempted delegation or assignment shall be void. (b) The rights and obligations of the parties hereunder shall be governed by and construed in accordance with the laws of the State of Seller's manufacturing location, without reference to its choice of law provisions. Each party hereby irrevocably consents to the exclusive jurisdiction of the state and federal courts located in the county and state of Seller's manufacturing location, in any action arising out of or relating to this Agreement. (c) Both parties waive any right they may have under applicable law or otherwise to a right to a trial by jury. Any action arising out under this Agreement must be brought within one (1) year from the date that the cause of action arose. (d) The application to this Agreement of the U.N. Convention on Contracts for the International Sale of Goods is hereby expressly excluded. (e) In the event that any one or more provisions contained herein shall be held by a court of competent jurisdiction to be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall remain in full force and effect, unless the revision materially changes the bargain. (f) Seller's failure to enforce, or Seller's waiver of a breach of, any provision contained herein shall not constitute a waiver of any other breach or of such provision. (g) Unless otherwise expressly stated on the Product or in the documentation accompanying the Product, the Product is intended for research only and is not to be used for any other purpose, including without limitation, unauthorized commercial uses, in vitro diagnostic uses, ex vivo or in vivo therapeutic uses, or any type of consumption by or application to humans or animals. (h) Buyer agrees that all pricing, discounts and technical Information that Seller provides to Buyer are the confidential and proprietary Information of Seller. Buyer agrees to (1) keep such Information confidential and not disclose such Information to any third party, and (2) use such Information solely for Buyer's internal purposes and in connection with the Products supplied hereunder. Nothing herein shall restrict the use of Information available to the general public. (i) Any notice or communication required or permitted hereunder shall be in writing and shall be deemed received when personally delivered or three (3) business days after being sent by certified mail, postage prepaid, to a party at the address specified herein or at such other address as either party may from time to time designate to the other. (j) Seller may, in its sole discretion, provide (1) applicable Product training to Buyer or its employees, or (2) samples of Products to Buyer for distribution to patients of Buyer. Buyer agrees that any such samples shall be distributed to patients for patient use or, if not so distributed, returned to Seller. Buyer shall not use such samples to provide care to patient and shall not bill patients or third party payers for the provision of such samples. (k) Seller hereby rejects and disclaims any rights of Buyer contained, or obligations imposed upon Seller, in any document provided, referenced or otherwise submitted by Buyer, in each case, that Seller has not expressly included in this Agreement or a writing manually executed by Seller (including, without limitation, any rights of Buyer in respect of designs, specifications, source code or intellectual property, owned, or licensed, by Seller; any rights to Items or services not specifically identified in Seller's quotation; any audit rights or financial offset rights of Buyer; any penalties or liquidated damages imposed upon Seller; any obligation by Seller to comply with HIPPA, cGMP or CT-PAT; any obligation that Seller comply with any law that, under law, would not otherwise apply to Seller in respect of the transaction(s) contemplated hereby; any right of Buyer to withhold all, or any portion, of the purchase price of any Products or services provided hereunder for any period of time, any right of Buyer, itself or through any third party, to remediate any defects in, replace or repair, any Products at Seller's cost or expense, any obligation of Seller to waives, or require its Insurers to waive, any rights of subrogation, any obligation of Seller that would impair, restrict or prohibit Seller's ability to freely conduct any business with any person or in any geography or market, or any waiver by Seller of any right to enforce any of the terms hereof).

* Please answer the following questions below.
* Click Save to save the page.

*1) Did your jurisdiction receive direct Byrne Justice Assistance (BJA) formula grant funding within the past three years from the United States Department of Justice, Bureau of Justice Assistance? 
   Yes □ Yes ✔ No □
   *Please explain, including:
   • The amount of funding your jurisdiction was awarded and how the funds will be used.
   • Why the funds you are requesting within this application were not considered to be funded with your direct BJA Grant.

   BYRNE JAG 2015-$86,092 used to upgrade electronics and technology within the department
   BYRNE JAG 2016 -$95,900 utilized to upgrade and purchase technology related to computers and computer software
   BYRNE JAG 2017-$101,280-Funds were used to purchase protective masks for officers and tactical team members for use during civil disturbances and hazardous operations.
   BYRNE JAG 2018-$106,630-funds requested are associated to cost of a Real Time Crime Center. The cost exceeds the amount allocated therefore no excess funds remain.

The requested funds related to technology that accounts for the increased danger associated to unidentified substances as well as technology which would increase the efficiency of the detention center operations. The items were not included in the previous submissions due to the fact that they were not identified as needs several years ago and in the current request (2018), there were no available funds given the cost of the identified project.

*2) Will the project you are applying for be supported by any other grant or foundation dollars (Federal, State or Private)?
   Yes □ Yes ✔ No □
   *Please explain:
   There are not additional funding sources.

Grant Summary

*This brief summary will be used for a short description of your project and for press notification, should you be awarded a grant. Be sure your description accurately presents your project.

The proposed technology enhancement grant seeks equipment which will assist the department by providing a method for officer safety as well as a new tool to increase department efficiency. This submission includes the purchase of Tru-Narc drug identification units as well as a portable fingerprint scanner.
The Lansing Police Department services a population of approximately 117,000. Of the 202 sworn officers in the department, roughly half are assigned to patrol. During their time on patrol, both through dispatched calls and self-initiated activities, officers routinely encounter narcotics. In addition to the officers on patrol, the Lansing Police Department has a Special Operations Section (narcotics) with 9 sworn officers as well as 1 sworn officer assigned to a multi-jurisdictional drug team. In 2017, the Lansing Police Department was responsible for initiating 384 drug related cases. Not included in these cases is the fact Lansing undercover officers were also involved in the purchase of narcotics on 327 occasions. During this time period, the Lansing Police Department also recorded 239 responses for heroin overdoses (19 fatal). This was an increase from 2016 which saw 145 overdoses (21 fatal). As of September 1, 2018, the trend has continued to increase as we have recorded 178 overdoses (18 fatal). Over the last two years, Lansing Officers also learned of the danger of synthetic opioids on the drug market such as fentanyl and carfentanil. As a result, precautionary methods were put into place to keep officers safe in the presence of unknown substances. The majority of the department's actions included providing safety information/education as well as providing basic personal protection equipment. In an effort to minimize officer's exposure, a departmental policy was put into effect banning the testing of unknown substances. While this was a solution which provided officer safety, it was not an answer for in-custody drug cases which require testing. Efforts were made to educate the legal and judicial portions of our system to include meetings with the prosecutor's office and the district Chief Judge however neither would support search warrants or arraignments without a positive test for narcotics. The Lansing Police Department is requesting funds to purchase two (2) Thermo-Scientific Tru Narc devices to allow officers to test unknown substances both in the field as well as in the detention unit. The tests not only use a specific process which does not require physical manipulation of all substances but also has gained acceptance in a court setting for test validity. The two units would be used to cover the most common locations where drugs tests are required or needed. Between the multiple departments requiring it's use and the over 600 instances where officers encountered narcotics, two units would allow for all to operate more efficiently.

The Lansing Police Jail is a local lock up which processes the arrests effected by Lansing Police Officers but is also available to any agency lodging subjects for violations occurring inside of Lansing. In addition to Law Enforcement, the Agents from the Michigan Department of Corrections also occasionally lodge parolees who are detained for violations of their conditions. In the past, detention officers only printed subjects who were lodged for felony offenses. As a result, it was discovered on at least two occasions, that subjects processed at the jail for misdemeanors were misidentified for a variety of reasons. To rectify this, a new policy was put into place where all subjects processed in the City of Lansing Jail had to be positively identified before being released. This additional step, which required the use of electronic systems, typically added an hour to the booking process. When this increase in time is taken in context with the fact the LPD jail processed over 5,300 adults and juveniles in 2016, it shows just how much time this extra step accounts for. Estimates for 2018 from Lansing Jail administrators place this years number of processed persons at 7,200. In 2018, a DataWorks Plus portable scanner was tested in the jail. The staff used the scanner on all persons as part of the booking process. The machine worked quickly and was also effective. At the end of the demo, the equipment was returned due to the fact there was not money available in the budget for the purchase. Reverting back to the slower process was a disappointing result of not being able to purchase the equipment. It's value was recognized and appreciated.

In addition to the description of the problem described above, attached is a document which further details the problem, the request, the course of action and the budget for the grant submission.
Problem Statement

RDB
Please see the attached title document. The document identifies the project goals of purchasing Thermo Scientific Tru-Narc units as well as a portable fingerprint scanner to be used by the Lansing Police Department.
*First Quarter
The Program Narrative, which was submitted, identifies the equipment requested for purchase. The equipment would be available for purchase immediately upon approval of the grant and upon approval of expending funds through the City of Lansing contract process. This process is less than 30 days. Contact with the vendors has been established and training is available from Thermo Scientific. The Lansing Police Detention Unit has experience in using the portable fingerprint scanner model requested.

The expenses of purchasing the equipment would occur in the first quarter. Follow up during the quarter could include reports of scans and of subjects processed in the jail.

*Second Quarter
The Lansing Police Department would comply with all grant reporting expectations to include monitoring the use of the equipment and reporting the findings of its implementation.

*Third Quarter
The Lansing Police Department would continue to comply with all grant reporting expectations to include monitoring the use of the equipment and reporting the findings of its implementation.

*Fourth Quarter
The Lansing Police Department would continue to comply with all grant reporting expectations to include monitoring the use of the equipment and reporting the findings of its implementation.
*Goal (100 character max): 
Increased Officer Safety, Department effectiveness and Efficiency

*Performance Measures: 
Specific Measures related to the Tru-Narc device includes the number of scans conducted, the number of successfully identified substances, an increase of in-custody narcotics reports and persons arraigned for narcotic cases, a decrease in warrants and a comparison of successful versus unsuccessful device scans of unknown substances.

Additional measures include increased efficiency of the booking process in the LPD jail and adherence to a policy aimed at identifying subjects arrested.

*Objective 1: 
To increase the safety of officers and the efficiency of departmental operations through the integration of new technology.

*Activity(ies): 
Activities include following up on relevant data associated to the target areas of improvement: Officer safety and narcotics and quickly identifying processed subjects in the jail.

Objective 2:

CITY OF LANSING
LANSING POLICE DEPARTMENT
Technology Enhancement Projects
Byrne Justice Assistance Grant (JAG) Program
00000056-Lansing Police Department-19

PROGRAM NARRATIVE
(Attachment )

JAG FY 2019 - ENHANCEMENTS TO
LANSING POLICE TECHNOLOGY

Description of the Issues (Goal)
The City of Lansing, County of Ingham, Michigan like many cities has a violent crime problem. As a result, the City of Lansing with multiple bordering jurisdictions, including the Ingham County Sheriff Department created a violent crime initiative to reduce crime by addressing the offenders and acknowledging the mobile component of crime, specifically violent crime in the area. The City's crime reduction partnership includes the Michigan State Police, Ingham County Sheriff, East Lansing Police, Lansing Community College and Michigan Department of Corrections to name a few. A result of this partnership is an increased level of activity both in self-initiated activity as well as the subsequent arrests. The Lansing Police Department seeks technology that will increase the safety of officers encountering and testing unknown substances as well as technology which will increase efficiency in identifying subjects processed at the Lansing Jail.

Objective
As a result of the partnerships, some of the increased activity as well as the focus on violent offenders has come in the form of new drug related charges. The two primary organizations in this effort, Lansing Police and Michigan State Police Secured Cities Program, have restrictions on the testing of drugs due to the safety hazard of drugs such as fentanyl and carfentanil. Lab testing as well as toxicology results confirm the presence of both in Lansing. While officers take the necessary precautions to stay around such substances, the legal realm has not acknowledged these dangers as it relates to in-custody reports without a positive field test conducted. Informative meetings have occurred at both the prosecutor and judicial levels of our system however neither have waived on their requirement of a positive field test. The purpose of this submission is to request two (2) Thermo Scientific Tru-Narc testing units. One of the units will be housed at the Lansing Police Department Jail and will be accessible to officers and other agencies who have made on-view arrests of persons in possession of suspected narcotics. The tests conducted by the Tru-Narc are accepted by the District Courts as an acceptable field testing method. Likewise, the Ingham County Prosecutor’s Office has also accepted the positive tests as presumptive evidence in narcotic cases. The Tru-Narc offers the testing of unknown substances through a means of non-contact
by using a laser relying on Raman spectroscopy technology. The result is an accurate reading from a growing library of over 400 identifiable substances (to include fentanyl and carfentanil).

The City of Lansing needs a technology that provides local law enforcement with the ability to introduce layers of protection into a constantly evolving realm of harmful substances. Thermo Scientific recognizes this and includes 36 types of fentanyl in their library. Reviving our ability to make arrests on cases involving suspected narcotics will bolster our current Project Safe Neighborhoods Federal Partnership on Crime Reduction and Safe Cities partnership as well as provide a safe means for all Lansing Police Officers for years to come.

The Lansing Police Department Jail currently has a mandate to positively identify all subjects processed at our facility. In the past, an absence of this policy led to the release of subjects who were able to present some type of false identification. Currently, the process includes utilizing the Live Scan machine. This process, from start to finish, occupies approximately 45 minutes of a detention officers time. While this is not an extreme amount of time or effort, it is inefficient when considering the daily task of prisoner intake, prisoner movement, prisoner welfare responsibilities and prisoner release needs. All of these responsibilities are exacerbated by the all too common program in Law Enforcement: staffing. Currently, the Lansing Police Department has a shortage of detention officers due to retirements, retention, qualified applicants and the hiring processes. In early 2018, a demo version of the DataWorks Plus Evolution portable fingerprint scanner was tested as a means to positively identify detainees. The results were overwhelmingly positive from the detention officers and the detention sergeants. The use of the scanner greatly increased efficiency in the booking process by cutting the identification process down from 45 minutes to well under five. Due to the effective and efficiency of the unit, officers were able to accomplish this task as part of the intake procedure which resulted in less back log and necessary follow up at the busiest times. In addition to efficiency, the officers and sergeants also reported their satisfaction with the efficiency. Officers went so far as to contact the company and receive training to add newly hired officers to the user database. The use of the device and its effectiveness also has a positive effect on the employee morale as they saw how technology could reduce their daily workload. Sadly, the demo unit was returned and not purchased due to budget restrictions.

**Project Design and Implementation (Activity)**

The project design of the City of Lansing's Thermo Scientific Tru-Narc and DataWorks Plus portable fingerprint scanner could be put into place immediately. Each unit comes with minimal recurring costs such as data plans and testing vials. The associated costs are known and are accepted as the long term responsibility of the Lansing Police Department. The costs associated are also acceptable to each specific department's yearly budget.

Strategic analysis of the requested equipment will be measured in several ways. One such way will be the absence of officer exposures once the testing of unknown substances are resumed. Additionally, the success of narcotic related charges issued at
the time of arrest as opposed to charges being dismissed pending the results of a lab test will also serve as a means to monitor success. There are additional benefits to Raman spectroscopy which will be hard to measure but easily identifiable such as the discovery of specific types of narcotics identified by patrol officers from this comprehensive test and the ability to provide additional training or reports related to the patrol officers as a whole.

The portable fingerprint scanner will also be measured in terms of a negative or the absence of no positively identifying subjects. This is coupled with the already identified increases in efficiency to the booking intake process. The scanner specifically will have a data plan managed by DataWorks Plus through their current vendor, Verizon, and the unit itself will be managed by the current Lead Detention Officer group at our facility.

Capabilities and Competencies
Additional planning/coordination will include training sessions for officers and sergeants on the use and function of the Tru-Narc. This will be the core responsibility of a select group of trainers such as our current Field Training group as well as Detention Sergeants. Currently plans have one of the units located at the jail and would allow for detention sergeants to assist outside agencies who lodge subjects with our jail. The Detention officers will also be trained on the use of the portable fingerprint scanner from instruction by our Lead Detention Officers.

Plan for Collecting the Data Required for this Solicitation’s Performance Measures

The City of Lansing will comply with all associated objectives and deliverables under the solicitation requirements. As a general practice, the Lansing Police Department compiles statistics related to arrests made and specific statutes cited. The Lansing Police will be able to compare the number of subjects lodged for narcotic violations in the forthcoming time periods against the time periods since a ban on substance testing was implemented. Additionally, specific time associated to identification will be captured and can be applied in general terms using statistics captured on persons booked at the Lansing Jail. Using known time requirements for the current process, a comparison will showcase the level of efficiency by means of identifying estimated time saved between the two methods.

2018 Direct Byrne JAG Award Summary Fund Project

Under application 2018-H3971-MI-DJ, the Lansing Police Department requested the use the Byrne JAG funds to assist in the purchase or creation of a real-time crime center. The requested funds ($106,630) was identified as covering only a portion of the known expense. A real-time crime center that provides a comprehensive integration of surveillance cameras, criminal databases and computer-aided dispatch call analyzes is needed to streamline communication channels throughout our policing efforts and further provide a comprehensive view of real-time crime.
The purpose of this project is to use newly acquired electronic technology to increase officer safety as well as improve departmental operation efficiency.

Quote: MI2018-0831-1918 v1 RAPID-ID(3)

Lt. Backus,

DataWorks Plus is pleased to respond to the Lansing Police Department's continued interest in the DataWorks' Mobile Fingerprint Identification System (Mobile-ID). We have provided pricing for one additional "All-Inclusive" device. This proposal is based upon a direct connection to the Michigan State Police and submitting prints to the Michigan State Police AFIS and FBI RISC database.

DataWorks Plus provides the Lansing Police Department with a unique opportunity to be able to provide a best of breed system allowing identification officers the ability use any state approved biometric identification device from any vendor. We have provided an overview of the system functionality and workflow with our Mobile Fingerprint Identification application also known as SAF-ID. Being hardware agnostic we can mix and match devices depending upon your specific needs.

DataWorks Plus appreciates the opportunity to present this proposal and look forward to working with you on this and other information systems or biometric needs. If you have any questions regarding this proposal, please do not hesitate to contact us.

Sincerely,

Additional Options / Accessories

Please use the space below to note any additional options and/or accessories you wish to add from the attached sheets that are not included in the above quotation.

When applicable, commodities, technology, or software to be provided in furtherance of this order shall be exported from the United States in accordance with applicable U.S. export laws or regulations. Diversion contrary to US law prohibited. Unless otherwise agreed to in writing, Thermo Scientific Portable Analytical Instruments Inc. terms and conditions shall apply and take precedence.
1. **GENERAL.** Thermo Scientific Portable Analytical Instruments Inc. ("Seller") hereby offers for sale to the buyer ("Buyer") the products listed on the face hereof (the "Products") on the express condition that Buyer agrees to accept and be bound by the terms and conditions set forth herein. Any provisions contained in any document issued by Buyer are expressly rejected and if the terms and conditions in this Agreement differ from the terms of Buyer's offer, this document shall be construed as a counter offer and shall not be effective as an acceptance of Buyer's document. Buyer's receipt of Products or Seller's commencement of the services provided hereunder will constitute Buyer's acceptance of this Agreement. This is the complete and exclusive statement of the contract between Seller and Buyer with respect to Buyer's purchase of the Products. No waiver, consent, modification, amendment or change of the terms contained herein shall be binding unless in writing and signed by Seller and Buyer. Seller's failure to object to terms contained in any subsequent communication from Buyer will not be a waiver or modification of the terms set forth herein. All orders are subject to acceptance in writing by an authorized representative of Seller.

2. **PRICE.** All prices published by Seller or quoted by Seller's representatives may be changed at any time without notice. All prices quoted by Seller or Seller's representatives are valid for thirty (30) days, unless otherwise stated in writing. All prices for the Products will be as specified by Seller or, if no price has been specified or quoted, will be Seller's price in effect at the time of shipment. All prices are subject to adjustment on account of specifications, quantities, raw materials, cost of production, shipment arrangements or other terms or conditions which are not part of Seller's original price quotation.

3. **TAXES AND OTHER CHARGES.** Prices for the Products exclude all sales, value added and other taxes and duties imposed with respect to the sale, delivery, or use of any Products covered hereby, all of which taxes and duties must be paid by Buyer. If Buyer claims any exemption, Buyer must provide a valid, signed certificate or letter of exemption for each respective jurisdiction. Buyer shall be solely responsible for obtaining any and all necessary licenses, registrations, certificates, permits, approvals or other authorizations required by federal, state or local statute, law or regulation pertaining to the use or possession of the products contemplated herein that include radioactive isotopes, or x-ray tubes if any.

4. **TERMS OF PAYMENT.** Seller may invoice Buyer upon shipment for the price and all other charges payable by Buyer in accordance with the terms on the face hereof. If no payment terms are stated on the face hereof, payment shall be net thirty (30) days from the date of invoice. If Buyer fails to pay any amounts when due, Buyer shall pay Seller interest thereon at a periodic rate of one and one-half percent (1.5%) per month (or, if lower, the highest rate permitted by law), together with all costs and expenses (including without limitation reasonable attorneys' fees and disbursements and court costs) incurred by Seller in collecting such overdue amounts or otherwise enforcing Seller's rights hereunder. Seller reserves the right to require from Buyer full or partial payment in advance, or other security that is satisfactory to Seller, at any time that Seller believes in good faith that Buyer's financial condition does not justify the terms of payment specified. All payments shall be made in U.S. Dollars.

5. **DELIVERY, CANCELLATION OR CHANGES BY BUYER.** The Products will be shipped to the destination specified by Buyer, FOB Seller's shipping point. Seller will have the right, at its election, to make partial shipments of the Products and to invoice each shipment separately. Seller reserves the right to stop delivery of Products in transit and to withhold shipments in whole or in part if Buyer fails to make any payment to Seller when due or otherwise fails to perform its obligations hereunder. All shipping dates are approximate only, and Seller will not be liable for any loss or damage resulting from any delay in delivery or failure to deliver which is due to any cause beyond Seller's reasonable control. In the event of a delay due to any cause beyond Seller's reasonable control, Seller reserves the right to terminate the order or to reschedule the shipment within a reasonable period of time; Buyer will not be entitled to refuse delivery or otherwise be relieved of any obligations as the result of such delay. Products as to which delivery is delayed due to any cause within Buyer's control may be placed in storage by Seller at Buyer's risk and expense and for Buyer's account. Orders in process may be canceled only with Seller's written consent and upon payment of Seller's cancellation charges. Orders in process may not be changed except with Seller's written consent and upon agreement by the parties to an appropriate adjustment in the purchase price therefor. Credit will not be allowed for Products returned without the prior written consent of Seller.

6. **TITLE AND RISK OF LOSS.** Notwithstanding the trade terms indicated above and subject to Seller's right to stop delivery of Products in transit, title & risk of loss to the Products will pass to Buyer upon delivery of possession of the Products by Seller to the carrier; provided, however, that title to any software incorporated within or forming a part of the Products shall at all times remain with Seller or the licensor(s) thereof, as the case may be.

7. **WARRANTY.** Seller warrants that the Products will operate or perform substantially in conformance with Seller's published specifications and be free from defects in material and workmanship, when subjected to normal, proper and intended usage by properly trained personnel, for the period of time set forth in the product documentation, published specifications or package inserts. If a period of time is not specified in Seller's product documentation, published specifications or package inserts, the warranty period shall be one (1) year from the date of shipment to Buyer for equipment and ninety (90) days for all other products (the "Warranty Period"). During the Warranty Period, Seller agrees, in its sole discretion, to repair or replace Products and/or provide additional parts or services as reasonably necessary to cause the Products to perform in substantial conformance with said published specifications; provided that Buyer shall (a) promptly notify Seller in writing upon the discovery of any defect, which notice shall include the product model and serial number (if applicable) and details of the warranty claim; and (b) after Seller's review, Seller will provide Buyer with service data and/or a Return Material Authorization ("RMA"), which may include biohazard decontamination procedures and other product-specific handling instructions, then, if applicable, Buyer may return the defective Products to Seller with all costs prepaid by Buyer. Seller further reserves the right, in its sole discretion, to extend any Warranty Period if all the time that the Warranty Period would otherwise expire, there are ongoing concerns regarding a Product's conformance to the warranty stated herein. Replacement parts may be new or refurbished, at the election of Seller. All replaced parts shall become the property of Seller. Shipment to Buyer of repaired or replacement Products shall be made in accordance with the Delivery provisions of the Seller's Terms and Conditions of Sale. Consumables are expressly excluded from this warranty. If Seller elects to repair defective medical device instruments, Seller may, in its sole discretion, provide a replacement loaner instrument to Buyer as necessary for use while the instruments are being repaired. Notwithstanding the foregoing, Products supplied by Seller that are obtained by Seller from an original manufacturer or third party supplier are not warranted by Seller, but Seller agrees to assign to Buyer any warranty rights in such Product that Seller may have from the original manufacturer or third party supplier, to the extent such assignment is allowed by such original manufacturer or third party supplier.
11. EXPORT RESTRICTIONS. Buyer acknowledges that each Product and any related software and technology, including technical information supplied by Seller or contained in documents (collectively *"items"*), is subject to export controls of the U.S. Government. The export controls may include, but are not limited to, those of the Export Administration Regulations of the U.S. Department of Commerce (the "EAR"), which may restrict or require licenses for the export of items from the United States and their re-export from other countries. Buyer shall comply with the EAR and all other applicable laws, regulations, laws, treaties, and agreements relating to the export, re-export, and import of any item. Buyer shall not, without first obtaining the required license to do so from the appropriate U.S. government agency; (i) export or re-export any item, or (ii) export, re-export, distribute or supply any item to any restricted or embargoed country or to a person or entity whose privilege to participate in exports has been denied or revoked by the U.S. government. Buyer shall, if requested by Seller, provide the names and addresses of all end users and end use of any item exported by the Buyer or to be exported by the Buyer. Buyer shall cooperate fully with Seller in any official or unofficial audit or inspection related to applicable export or import control laws or regulations, and shall indemnify and hold Seller harmless from, or in connection with, any violation of this Section by Buyer or its employees, consultants, or agents.

12. HAZARDOUS MATERIALS. Some Products may require special packaging, labeling, marking and handling. Carriers may add additional freight charges for the handling or transporting of these materials. The consolidating of such material with other Products may be prohibited. Additional freight charges will be billed per Seller's shipping terms. Be sure to advise Seller of shipping instructions for these hazardous materials to reduce your freight costs.

13. MEDICARE/MEDICAID REPORTING REQUIREMENTS. If Buyer is a recipient of Medicare/Medicaid funds, Buyer acknowledges that it has been informed of and agrees to fully and accurately account for, and report on its applicable cost report, the total value of any discount, rebate or other compensation paid hereunder in a way that complies with all applicable federal, state and local laws and regulations which establish Safe Harbor for discounts. Buyer shall make written request to Seller in the event Buyer requires additional information from Seller in order to meet its reporting requirements. Buyer acknowledges that agreement to such reporting requirement was a condition precedent to Seller's agreement to provide Products and that Seller would not have entered into this Agreement had Buyer not agreed to comply with such obligations.

14. MISCELLANEOUS. (a) Buyer may not delegate any duties nor assign any rights hereunder without Seller's prior written consent, and any such attempted delegation or assignment shall be void. (b) The rights and obligations of the parties hereunder shall be governed by, and construed in accordance with, the laws of the State of Seller's manufacturing location, without reference to its choice of law provisions. Each party hereby irrevocably consents to the exclusive jurisdiction of the state and federal courts located in the county and state of Seller's manufacturing location, in any action arising out of or relating to this Agreement. (c) Both parties waive any right they may have under applicable law or otherwise to a right to a trial by jury. Any action arising under this Agreement must be brought within one (1) year from the date that the cause of action arose. (d) The application to this Agreement of the Uniform Commercial Code is hereby expressly excluded. (e) In the event that any one or more provisions contained herein shall be held by a court of competent jurisdiction to be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall remain in full force and effect, unless the revision materially changes the bargain. (f) Seller's failure to enforce, or Seller's waiver of a breach of, any provision contained herein shall not constitute a waiver of any other breach of, or of such provision. (g) Unless otherwise expressly stated on the Product or in the documentation accompanying the Product, the Product is intended for research only and is not to be used for any other purpose, including without limitation, unauthorized commercial uses, in vitro diagnostic uses, ex vivo or in vivo therapeutic uses, or any type of consumption by or application to humans or animals. (h) Buyer agrees that all pricing, discounts and technical information that Seller provides to Buyer are the confidential and proprietary information of Seller. Buyer agrees to (1) keep such information confidential and not disclose such information to any third party, and (2) use such information solely for Buyer's internal purposes and in connection with the Products supplied hereunder. Nothing herein shall restrict the use of information available to the general public. (i) Any notice or communication required or permitted hereunder shall be in writing and shall be deemed received when personally delivered or three (3) business days after being sent by certified mail, postage prepaid, to a party at the address specified herein or at such other address as either party may from time to time designate to the other. (j) Seller may, in its sole discretion, provide (1) applicable Product training to Buyer or its employees, or (2) samples of Products to Buyer for distribution to patients of Buyer. Buyer agrees that any such samples shall be distributed to patients for patient use or, if not so distributed, returned to Seller. Buyer shall not use such samples to provide care to patient and shall not bill patients or third party payers for the provision of such samples. (k) Seller hereby rejects and disclaims any rights of Buyer contained, or obligations imposed upon Seller, in any document provided, referenced or otherwise submitted by Buyer, in each case, that Seller has not expressly included in this Agreement or a writing manually executed by Seller (including, without limitation, any rights of Buyer in respect of designs, specifications, source code or intellectual property, owned, or licensed, by Seller; any rights to items or services not specifically identified in Seller's quotation; any audit rights or financial offset rights of Buyer; any penalties or liquidated damages imposed upon Seller; any obligation by Seller to comply with HIPAA, COPPA or CT-PAT; any obligation that Seller comply with any law that, under law, would not otherwise apply to Seller in respect of the transaction contemplated hereby; any right of Buyer to withhold all, or any portion, of the purchase price of any Products or services provided hereunder for any period of time, any right of Buyer, itself or through any third party, to remediate any defects in, replace or rework, any Products at Seller's cost or expense, any obligation of Seller to waive, or require its insurers to waive, any rights of subrogation, any obligation of Seller that would impair, restrict or prohibit Seller's ability to freely conduct any business with any person or in any geography or market, or any waiver by Seller of any right to enforce any of the terms hereof).
Hi Stephanie,

Awhile back, you informed me that a source letter was needed related to the Tru Narc purchase. Attached is that letter.

Please let me know when it is approved. I will then submit a requisition.

Thank you.

Subject: Sole Source Request – Tri-County Metro  
Date: April 12, 2019

The Lansing Police/Tri-County Metro (TCM) Narcotics Operations have identified the need to replace two vehicles being used in TCM Narcotics Operations.

Due to the nature of the operations, the vehicles must blend into the environment in which they are deployed. This is fulfilled by driving used vehicles rather than new models. While the goal is to keep the vehicles themselves hidden and covert, through the course of use over years, their existence and their specifics are revealed.

Currently, the TCM fleet is made up of different makes and models as well as colors to diversify our efforts to blend in. Due to the nature of sales of pre-owned vehicles, it is financially advantageous to purchase multiple vehicles from one dealer who offers a wide inventory. TCM requested inventory and pricing from a number of local area dealerships and then reviewed them for price and functionality. The decision was made to purchase the following vehicles:

- 2012 Kia Sportage, 59k miles $12,000.00
- 2015 Chevrolet Malibu 49.5k miles $12,000.00

I am requesting a sole source total purchase approval of $24,000 for the two above listed vehicles. The funds to pay for the two vehicles will come from the Tri-County Metro Narcotics fund budget.

Thank you for your assistance with this matter,

Mike Yankowski, Chief of Police

To: Stephanie Robinson, Purchasing Department Senior Buyer
From: Thomas Kish, Commander, Tri-County Metro Narcotics
Subject: Sole Source Request- Replacement Vehicle Purchases

The City of Lansing Fiduciary on behalf of Tri-County Metro (TCM) Narcotics Operations are working to replace two vehicles being used in TCM narcotics and investigative operations.

Due to the nature of the operations, the vehicles must blend into the environment in which they are deployed. This is fulfilled by driving used vehicles rather than new models. While the goal is to keep the vehicles themselves hidden and covert, through the course of use over a period of years their existence and their specifics are eventually revealed.

Currently, the TCM fleet is made up of vehicles that are more commonly associated with police use. The intent is to change this which provides both a tactical and financial benefit. Due to the nature of sales of pre-owned vehicles, it is financially advantageous to purchase multiple vehicles from one dealer who offers a wide inventory. TCM requested inventory and pricing from many local area dealerships and then reviewed them for price and functionality. The decision was made to purchase the following vehicles from Shaheen Chevrolet in Lansing:

- 2012 Kia Sportage, 59,000 miles $12,000.00
- 2015 Chevrolet Malibu 49,500 miles $12,000.00

I am requesting a sole source purchase approval of $24,000 for the two above listed vehicles. The funds to pay for the two vehicles will be expensed to Tri-County Metro Narcotics fund budget and has received board approval.

From: Mike Yankowski, Chief of Police  
Subject: Sole Source Request – David L. Carter  
Date: April 15, 2019

With this memo, I am requesting approval for Dr. Carter to continue, on a sole source basis, to provide LPD an annual Management Analysis of Traffic Stops (MATS). Such analysis is used to detect any pattern of officer behavior that may suggest evidence of racial profiling.

LPD’s first arrangement with Dr. Carter was in 2000. Dr. Carter’s current fee of $19,500 has remained the same since 2007.

His work has always been outstanding. His research has been thorough, his findings without reproach, and his reports exemplary.

Thank you for your assistance with this matter.

RID # RQ-1905-07447 Reference/Transaction: Transfer of Escrowed SDM License

Please let this letter serve as notice the Michigan Liquor Control Commission has referred your application to our Enforcement Division for investigation of your request.

Applicant/Licensee: Kaur, Bhupinder

Business address and phone number: 1200 W Willow St, Lansing, MI 48915

Home address and phone number of partner(s)/subordinates:
Bhupinder Kaur, 815 Powderhorn Dr, Lansing, MI 48917, C: 517-819-2244

As part of the licensing process, an investigation is required by the Michigan Liquor Control Commission Enforcement Division. The Enforcement investigation will be conducted from the following designated District Office:

Lansing District Office (866) 813-0011

You may contact your designated District Office regarding any appointments or questions on documentation requested by the Investigator. Failure to provide requested information or to keep scheduled appointments will cause the application to be returned to the Lansing office for cancellation.

Since this request is a transfer under MCL 436.1529(1), approval of the local unit of government is not required. However, a copy of this notice is also being provided to Local Governmental Unit should they wish to submit an opinion on the application or advise of any local non-compliance issues.

Under administrative rule R 436.1105, the Commission shall consider the opinions of the local residents, local legislative body, or local law enforcement agency with regard to the proposed business when determining whether an applicant may be issued a license or permit.

Under administrative rule R 436.1003, the licensee shall comply with all state and local building, plumbing, zoning, sanitation, and health laws, rules, and ordinances as determined by the state and local law enforcements officials who have jurisdiction over the licensee. The licensee must obtain all other required state and local licenses, permits, and approvals before using this license for the sale of alcoholic liquor. Approval of this license by the Michigan Liquor Control Commission does not waive any of these requirements.

Honorable Mayor of the City of Lansing  
Members of the Lansing City Council  
City Hall – 10th Floor  
124 W. Michigan Avenue  
Lansing, MI 48933

Dear Mr. Mayor and City Council Members,

I am writing you today to offer our position on a development project currently before you for consideration. The project in discussion is the former Kmart store at 5400 South Cedar Street.

We have reviewed the U-Haul corporation’s plans and concepts that have been submitted for the adaptive reuse of the former Kmart building. Our interest came from the current construction and ownership of a directly adjacent office building we have developed for the State of Michigan. Our project, just recently occupied, brings a new 24,000 square foot office building to Jolly Cedar Court with its 110 employees.

When we started our project seven months ago the Kmart building was an eye sore and detriment to our development. After years of neglect our south lot line was filled with debris and refuse as a result of the building’s vacancy. We took the initiative to not only clean up our site but the adjoining north lot line of the Kmart site. Today we are proud of the $4,000,000 new building improvement to South Lansing. Our hope is the process can be continued with the approval of the U-Haul project before you.

Gentilozzi Real Estate has been an active developer in the greater Lansing area for forty-nine years accomplishing more than $150,000,000 of developments; projects like One Michigan Ave., The Grand Tower and The Victor Office Center. We try to be good neighbors and consider our partnership with the City of Lansing as fundamental in our success.
I can say to you that the U-Haul project is 100% positive from our view. The reuse and redevelopment of the Kmart location is just in time to help change the development curve. New developments breed more new developments and that provides a tax base increase helping the City grow and maintain.

I have included a picture of our new building and hope that you have a chance to visit soon. I thank you in advance for your consideration.

Respectfully,

Paul Gentilozzi
President – Gentilozzi Real Estate

Honorable Council President Carol Wood and
Honorable Members of the Lansing City Council

I wish to thank you for the great honor you have bestowed on me by naming the Lansing Council Chambers the Tony Benavides Lansing City Council Chambers. I am truly humbled by the action taken by Council Members. It is difficult to fully express what this honor means not only to me but to my family. I didn’t know what to say when I was informed of this action. Such an honor is never sought or expected.

It was always a privilege and an honor for me to work for the citizens of Lansing. Lansing is my home and I will continue to extol the greatness of our city. We have accomplished milestones that were not easy to achieve and your hard work has set an example of what can be achieved through cooperation and hard work. We are fortunate to have your expertise and commitment dedicated to us, the citizens.

Thank you, each of you, for this honor and for your commitment to our great city. I know God will continue to bless your hard work.

Sincerely

Tony Benavides,
