WHEREAS the people of Lansing joined the world in witnessing the horror of the murder of George Floyd at the hands of the Minneapolis Police Department;

WHEREAS police departments across the country have their own history of racist violence and discrimination;

WHEREAS people of all races, led by Black youth, have risen up in recent weeks here in Lansing and around the country to demand an end to police violence against Black people, and a fundamental shift in how we think about policing and community safety;

WHEREAS increased policing does not solve the challenges of violence or crime in our communities, but only introduces a more violent force into the equation;

WHEREAS investments in education, healthcare, mental health programs, and community-led social programs are proven to increase community safety in a more cost-effective manner than policing;

WHEREAS Black communities in Lansing suffer unequal educational opportunities and access to healthcare due to generational disinvestment by the city, state and federal government;

WHEREAS the Police Department receives one third of the total city revenue, making it the city’s largest annual expenditure;

WHEREAS the Police budget has grown 11% over the past 3 years, at nearly double the rate of the Public Services budget and while the Human Services budget has decreased, reflective of a deadly skewing of our priorities;

WHEREAS all Lansing residents, Black, white, and brown, deserve a greater say in the allocation of public resources;

WHEREAS Ingham County and the City of Lansing have declared racism a public health crisis;

THEREFORE BE IT RESOLVED THAT the Lansing City Council commits to taking the following steps to invest in public services that benefit all residents and reduce racial inequities while reducing the police budget:

1. INVEST IN THE PEOPLE OF LANSING
   a. Create an ad-hoc committee on Public Safety Transformation (“the committee”) which will focus on two goals. First, the committee will administer a community budgeting process (“the process”) to determine the exact allocation of funds
made available through a police budget reduction of 50% over a five-year period. Second, the committee will issue recommendations on how to administer public safety with the reduced funding levels. A “New Priorities Report” will be released to the public with recommendations on investment targets and public safety administration.

2. THE AD-HOC COMMITTEE ON PUBLIC SAFETY TRANSFORMATION

a. A commitment to systemic transformation, compassion, liberation for marginalized people and racial equity should be at the center of the team’s work.

b. The committee will be tasked with the responsibility of finding ways to reduce the police budget and reinvest those funds into other city programs through a process that centers community input and those adversely affected by over-policing.

3. THE COMMUNITY BUDGETING PROCESS

a. The process must be open and transparent; guided by the Ad-Hoc Committee on Public Safety Transformation; conducted in a community-driven manner without undue influence from the Mayor’s office; and ensure broad and deep participation from Black communities and all others negatively impacted by police violence and lack of public investment in our city.

b. The community budgeting process will operate under the framework of a 50% reduction in the police budget over a 5-year period. The process will be focused on finding ways of reinvesting funds made available through police budget reductions into other city programs.

c. The process must commit to uprooting the false belief in racial hierarchy and investing in community health services, youth programs, transformative justice, and other programs to repair the decades of harm caused by racism in our community and reduce dependence on police.

d. The process shall compile its results into a “New Priorities Report” and be shared with the City Council and the public by February 1, 2021.

4. REFORM AND REDUCE THE LANSING POLICE BUDGET

a. In the remaining police budget, the task force must examine the following policies that include but are not limited to: de-escalation protocols, racial bias training and a zero-tolerance policy for racist acts by Lansing Police officers without any additional funding.

b. This process should examine best practices on public safety with unarmed response teams and other forms of crisis assistance that focus on transformative justice.

c. The process shall compile its results into the “Public Safety Transformation Report” listed in Section 3(d) and shared with the public by February 1, 2021.

I have been slowly but persistently working to repair the property at 1110 Hickory since it failed a rental inspection in 2014, after being heavily damaged by a family of refugees who did not know how to take care of an American home. 5 years is a long time to make repairs, but I was 3 years into a PhD program at Michigan State University (MSU), which reduced my income down to a $16,000/year stipend that did not so much as cover child-care for our three young children. We had been relying on rental income ($8,000/yr) to help offset my loss of work income. I borrowed money to hire Lansing Teen Challenge, who completed some of the repairs, but were unable to continue after their work director left. Lacking the resources to hire anyone further, I was left to slowly complete the work as time permitted, using credit card cash advances to cover supplies and living expenses for my family, as well as property tax payments on my primary residence and 1110 Hickory. This was made worse by the city charging red tag monitoring fees, totally around $4500 (as I recall; I did not verify the amount), even though I was actively working on repairs. The recent trash removal fee for $4050 could not have come at a worse time, and presents an undue hardship for my family, at a time when I am working limited hours as a temporary employee at MSU, following completion of my PhD.

On May 4, 2019, the house next door (1106 Hickory) was destroyed by fire, and my property at 1110 Hickory was damaged. I had to choose between losing the house and borrowing more money to hire someone to fix what was beyond my skill to repair. On Aug 12, 2019, I hired Larry Feldpausch (Groesbeck Painting) to commence repairs. On Sept 9, Feldpausch began to encounter electrical problems, which he and I tried unsuccessfully to troubleshoot. On Sep 30, after three bids, I hired Wilbert Jackson, Master Electrician, to repair the electrical problems and, while he was at it, to upgrade electrical service from two 60A fuse panels to one 200A panel, which I hoped would improve the chances of selling the house once repaired.

On Oct 1, the city issued the electrical permit, but refused to let Jackson schedule an inspection for reasons that were not clear at the time. Feldpausch and Jackson both visited the building safety office in person more than once, and made several phone calls trying to resolve the issue. I called the office 3 times on Oct 7, and left a message for Brian McGrain, the Director of Economic Development and Planning. On Oct 11, someone in the office told Feldpausch that the property owner needed to contact "Susan in zoning" before the process could move forward. I spoke with Susan Stachowiak, the zoning administrator, on Oct 11, 2019. She said she had no idea why I had been referred to her, because this was not a zoning issue. By Oct. 14, Feldpausch had ascertained that the delay ultimately derived from the house having been red-tagged because of the unresolved code violations found during the rental inspection in 2014, referenced above. Therefore, I left a message for Scott Sanford, Manager/Lead Housing Inspector, on Oct 14. On Oct 15, I left a message for Chris Breiter, Premise Inspector for the zone the property is in. Feldpausch was finally able to resolve the issue shortly before I received my first phone call back from the city, which came from McGrain on Oct. 23. McGrain apologized for the delay, citing issues with the city phone system that improperly routed messages to the junk folder in the email system. He assured me I could expect better service from Building Safety in the future.

Jackson was then able to schedule the inspection for Oct. 24, 2019. He could not upgrade the electrical service without having an inspection date scheduled, and Feldpausch could not work on the property without lights and power for his tools. Thus, Feldpausch was delayed nearly one month (from Oct 1 to Oct 24) because of the city’s slow response and poor communication. Cold temperatures arrived Oct 30, making it impossible for him to complete exterior repairs and painting prior to spring. Meanwhile, Feldpausch continued work inside, including removal of debris, which he stacked in two piles in the back yard off of the alley. Had the electrical inspection been scheduled for the first week in October, as
would be typical), the repairs would have been completed by the beginning of November, and all of that debris would have been removed as part of his contract.

On Dec. 10, 2019, I left town with my family to visit relatives, returning Jan 1, 2020. The evening of Jan 2, 2020, I opened a notice from the city regarding a trash violation, conveniently dated Dec 11, 2019, the day after we had left. I called Chris Breiter, Premise Inspector, the morning of Jan. 3, 2020. He first said nothing could be done because it had already been sent to a contractor on Dec. 18, 2019. I asked if I could call the contractor, and he replied that he cannot give out their name or contact information. I called back and Breiter agreed to email the contractor, asking him not to do the job because the owner would take care of it. Breiter said there was no guarantee, but that is the best he could do. My contractor began removal of the debris Monday morning. When he arrived on Tuesday morning to complete the work, the city contractor (Erics Refuse) was already removing the remainder of the debris, and said my contractor could not work on it anymore. Please note that the city contractor had not removed any debris during the 3 weeks that began when they were first contacted on Dec. 18. However, once they learned that the owner would take care of it, they quickly prioritized this clean-up. If the city gets read receipts from email messages sent out, please check the timestamp to see when the contractor read the email Breiter sent on Jan 3. I believe that this contractor is taking advantage of their relationship with the city to charge overinflated prices for their services, which should be a matter of concern to the city and produces a great amount of stress for people in my situation. I was shocked when I got the bill from the city for $4050 for trash removal. I texted Feldpausch to ask what he would have charged for debris removal had it not been included in his contract. He said $400. I then texted him a copy of the bill, and he replied that it was “ridiculous,” “exorbitant,” and “unbelievable.” Feldpausch further informed me that the city contractor had entered my storage shed and removed the materials we had stored there, including prefinished oak hardwood flooring and custom ceiling tiles intended for the renovation, valued at around $800. I contacted McGrain to complain about the fine and the removal of personal property, and he referred me to the claims process through the City Attorney’s office. I then contacted the Lansing Police Department, but was informed that they could not file a police report based on a city contractor removing personal property from a structure. The police lieutenant advised me to consult with an attorney, but I chose instead in good faith to start by filing this claim.

Since the tenant damage, my plan has been to repair the property in order to sell it. In the condition it was in, my realtor told me the property would only sell for around $20,000, which is nearly $50,000 less than what I have into it. I have borrowed thousands of dollars to pay for repairs, property taxes and insurance in an attempt to fix up this property for sale. In the process, I have lost rental income and been buried under nearly $4500 in red tag monitoring fees from the city. Access to that money would have allowed me to restore this property much sooner. I understand the city wants to prevent blight, but please understand that the actions of the city have made my vision of restoring this property much more difficult, besides the emotional toll of feeling unsupported and overwhelmed by the extent of the repairs needed and the lack of resources to see it done.

Having the property at 1110 Hickory repaired and returned to productivity is in the best interest of the city. Toward that end, I would appreciate dismissal of the $4050 fine for trash removal, which could have been avoided had the city provided better service during the permitting process, and presents an undue hardship in my situation. I also recommend that the city investigate the city contractor used in this case to see whether they have a pattern of overcharging for services. I appreciate your willingness to engage in this conversation, and look forward to its resolution. I am happy to provide copies of contracts, text messages, or any other materials that would be helpful for your review.

CODE OFFICER’S NOTES: This long term Red Tagged property was cited for a trash violation on 12/1/2019 with a compliance due date of 12/18/2019. The Premise Officer rechecked the property on 12/19/2019 and all the violation were still present therefore the violations were submitted to the contractor. The contractor arrived on 1/8/2020 and the violations were still present as indicated in the photos and a cleanup was performed. The Electrical Permit the claimant keeps referring to was not finalized out until 3/16/2020 and has no bearing on the trash violation. The debris were not all electrical in nature there was a large pile of brush and tree limbs, clothing, paint, and old windows. The work site was not being maintained in an orderly fashion a dumpster/trailer should have been placed at the property for the debris to be placed in. This office would also like to note this property was left open and accessible on 4/12/2020 the Lansing Police Department contacted us to have the dwelling secured we have included a photo showing the interior of the property is still being worked on almost a month after the Electrician had completed their work it shows that building repairs are being made without benefit of permit or approval. This office recommends denial of the claim.

I have been slowly but persistently working to repair the property at 1110 Hickory since it failed a rental inspection in 2014, after being heavily damaged by a family of refugees who did not know how to take care of an American home. 5 years is a long time to make repairs, but I was 3 years into a PhD program at Michigan State University (MSU), which reduced my income down to a $16,000/year stipend that did not so much as cover child-care for our three young children. We had been relying on rental income ($8,000/yr) to help offset my loss of work income. I borrowed money to hire Lansing Teen Challenge, who completed some of the repairs, but were unable to continue after their work director left. Lacking the resources to hire anyone further, I was left to slowly complete the work as time permitted, using credit card cash advances to cover supplies and living expenses for my family, as well as property tax payments on my primary residence and 1110 Hickory. This was made worse by the city charging red tag monitoring fees, totally around $4500 (as I recall; I did not verify the amount), even though I was actively working on repairs. The recent trash removal fee for $4050 could not have come at a worse time, and presents an undue hardship for my family, at a time when I am working limited hours as a temporary employee at MSU, following completion of my PhD.

On May 4, 2019, the house next door (1106 Hickory) was destroyed by fire, and my property at 1110 Hickory was damaged. I had to choose between losing the house and borrowing more money to hire someone to fix what was beyond my skill to repair. On Aug 12, 2019, I hired Larry Feldpausch (Groesbeck Painting) to commence repairs. On Sept 9, Feldpausch began to encounter electrical problems, which he and I tried unsuccessfully to troubleshoot. On Sep 30, after three 1/2s, I hired Wilbert Jackson, Master Electrician, to repair the electrical problems and, while he was at it, to upgrade electrical service from two 60A fuse panels to one 200A panel, which I hoped would improve the chances of selling the house once repaired.

On Oct 1, the city issued the electrical permit, but refused to let Jackson schedule an inspection for reasons that were not clear at the time. Feldpausch and Jackson both visited the building safety office in person more than once, and made several phone calls trying to resolve the issue. I called the office 3 times on Oct 7, and left a message for Brian McGrain, the Director of Economic Development and Planning. On Oct 11, someone in the office told Feldpausch that the property owner needed to contact “Susan in zoning” before the process could move forward. I spoke with Susan Stachowiak, the zoning administrator, on Oct 11, 2019. She said she had no idea why I had been referred to her, because this was not a zoning issue. By Oct. 14, Feldpausch had ascertained that the delay ultimately derived from the house having been red-tagged because of the unresolved code violations found during the rental inspection in 2014, referenced above. Therefore, I left a message for Scott Sanford, Manager/Lead Housing Inspector, on Oct 14. On Oct 15, I left a message for Chris Breiter, Premise Inspector for the zone the property is in. Feldpausch was finally able to resolve the issue shortly before I received my first phone call back from the city, which came from McGrain on Oct. 23. McGrain apologized for the delay, citing issues with the city phone system that improperly routed messages to the junk folder in the email system. He assured me I could expect better service from Building Safety in the future.

Jackson was then able to schedule the inspection for Oct. 24, 2019. He could not upgrade the electrical service without having an inspection date scheduled, and Feldpausch could not work on the property without lights and power for his tools. Thus, Feldpausch was delayed nearly one month (from Oct 1 to Oct 24) because of the city’s slow response and poor communication. Cold temperatures arrived Oct 30, making it impossible for him to complete exterior repairs and painting prior to spring. Meanwhile, Feldpausch continued work inside, including removal of debris, which he stacked in two piles in the back yard off of the alley. Had the electrical inspection been scheduled for the first week in October, as
contracts, text messages, or any other materials that this case to see whether they
have undue hardship in my situation. Toward that end, have repairs needed and the
more difficult, besides the emotional toll of feeling unsupported and overwhelmed by the extent of the
repairs needed and the lack of resources to see it done.

On Dec. 10, 2019, I left town with my family to visit relatives, returning Jan 1, 2020. The evening of Jan
2, 2020, I opened a notice from the city regarding a trash violation, conveniently dated Dec 11, 2019, the
day after we had left. I called Chris Breiter, Premise Inspector, the morning of Jan 3, 2020. He first said
nothing could be done because it had already been sent to a contractor on Dec. 18, 2019. I asked if I
could call the contractor, and he replied that he cannot give out their name or contact information. I
called back and Breiter agreed to email the contractor, asking him to not do the job because the owner
would take care of it. Breiter said there was no guarantee, but that is the best he could do. My
contractor began removal of the debris Monday morning. When he arrived on Tuesday morning to
complete the work, the city contractor (Erics Refuse) was already removing the remainder of the debris,
and said my contractor could not work on it anymore. Please note that the city contractor had not
removed any debris during the 3 weeks that began when they were first contacted on Dec. 18.

However, once they learned that the owner would take care of it, they quickly prioritized this clean-up.
If the city gets read receipts from email messages sent out, please check the timestamp to see when the
contractor read the email Breiter sent on Jan 3. I believe that this contractor is taking advantage of their
relationship with the city to charge overinflated prices for their services, which should be a matter of
concern to the city and produces a great amount of stress for people in my situation. I was shocked
when I got the bill from the city for $4050 for trash removal. I texted Feldpausch to ask what he would
have charged for debris removal had it not been included in his contract. He said $400. I then texted
him a copy of the bill, and he replied that it was "ridiculous," "exorbitant," and "unbelievable."

Feldpausch further informed me that the city contractor had entered my storage shed and removed the
materials we had stored there, including prefinished oak hardwood flooring and custom ceiling tiles
intended for the renovation, valued at around $800. I contacted McGrain to complain about the fine
and the removal of personal property, and he referred me to the claims process through the City
Attorney's office. I then contacted the Lansing Police Department, but was informed that they could not
file a police report based on a city contractor removing personal property from a structure. The police
lieutenant advised me to consult with an attorney, but I chose instead in good faith to start by filing this
claim.

Since the tenant damage, my plan has been to repair the property in order to sell it. In the condition it
was in, my realtor told me the property would only sell for around $20,000, which is nearly $50,000 less
than what I have into it. I have borrowed thousands of dollars to pay for repairs, property taxes and
insurance in an attempt to fix up this property for sale. In the process, I have lost rental income and
been buried under nearly $4500 in red tag monitoring fees from the city. Access to that money would
have allowed me to restore this property much sooner. I understand the city wants to prevent blight,
but please understand that the actions of the city have made my vision of restoring this property much
more difficult, besides the emotional toll of feeling unsupported and overwhelmed by the extent of the
repairs needed and the lack of resources to see it done.

Having the property at 1110 Hickory repaired and returned to productivity is in the best interest of the
city. Toward that end, I would appreciate dismissal of the $4050 fine for trash removal, which could
have been avoided had the city provided better service during the permitting process, and presents an
undue hardship in my situation. I also recommend that the city investigate the city contractor used in
this case to see whether they have a pattern of overcharging for services. I appreciate your willingness
to engage in this conversation, and look forward to its resolution. I am happy to provide copies of
contracts, text messages, or any other materials that would be helpful for your review.
