DISCUSSION/ACTION
DISCUSSION: Ordinance Amendments to Chapter 1300 Marihuana Establishments/Operations
Ms. Boak went through the following items in the document noted to be corrected:
Page 5 Line 106 – should be 1300.07
Page 47 Line 1160 – should be Chapter 622 not 662
Page 47 Line 1167 – should be Section 1300.04 not 1300.14 (a)
Page 49 Lines 1215-1217 was corrected in and earlier email from OCA to remove “unless given immediate effect”
Page 46-47 Lines 1143-1146 and 1163-1168; The OCA clarified that even though “caps” represents new language and since it was determined not to include it, the OCA did a “strike-thru” instead of deleting completely so the Committee could see it did come out.
Ms. O'Boyle corrected page 43, Lines 1067-1068 which should have been formatted to “caps” on “including but not limited to any”.

The Committee briefly discussed the buffering changes in 1300.10 page 41 lines 1006-1018 and the OCA presented a map depicting those buffered areas. The OCA did not advise the Committee to go with the 1000’ based on the zoning, as the Committee earlier wanted. Council Member Spitzley stated her support of the 1,000 ft. buffer. Mr. Smiertka stated there is a concept in the law, and that is what the OCA is working under, but it makes it difficult and presents a risk. Council Member Spitzley confirmed a micro business can be in zoned Heavy and Light Industrial, and recommended the question the Committee should look at on the maps would be if the zoning is there, and the goal is not to find empty locations, but is there zoning appropriate to allow for that business to happen. Council Member Hussain stated he had no issues with the proposed 1,000 ft. buffering.

Council Member Wood asked the OCA to confirm that everything the Committee asked for was in the Ordinance and who would be presenting to the Planning Board to make sure they are aware they are only to review and make recommendations on the zoning portion. Mr. Smiertka confirmed and stated they will be advised that they are restricted to reviewing only the zoning and restrict to that recommendation.

Council Member Wood then outlined the next steps, first stating that they will take the recommendation from the Planning Board at the September 5th Committee meeting and can choose to incorporate it or not, and then set the public hearing for 9/30/2019. Council will then set the hearing on 9/9/2019 for 9/30/2019. The Committee of the Whole will review the Ordinance at their 9/23/2019 meeting. The Ordinance will have to hold its hearing and be adopted on 9/30/2019 so there is 30 days before adoption. This would make the November 1, 2019 deadline by the State.

Council Member Wood then asked the OCA to provide a clean copy of the ordinance to Susan Stachowiak to provide to the Planning Board and to include the Committee in that email. Mr. Smiertka advised his staff to change the header on the latest version from Committee to “Public Safety Committee Draft #”.

Other
Council Member Wood briefly opened a discussion on issues with social clubs, and if there was the ability to license a social club. Mr. Smiertka confirmed he is meeting with Chief Green on that subject. The Committee provided locations of concern including MLK/REO, 48808 S Waverly, Pierson/MLK and Pleasant Grove.

Ms. Reynolds asked the Committee to consider billing any labor charges from the LPD to the owner of a property when they are enforcing a violation on that property.

Council Member Spitzley stated she would not be at the September 5, 2019 Committee meeting, but concurs with the Ordinance language as written as of this meeting.

MOTION BY COUNCIL MEMBER HUSSAIN TO APPROVE THE MINUTES FROM AUGUST 15, 2019. MOTION CARRIED 2-0.

DISCUSSION/ACTION
DISCUSSION – City Attorney Update – 3801 Walton
Mr. Abood informed the Committee that a premise inspection is scheduled. One was already performed and the OCA, Council Member Garza and a building inspector were present, however a second one has been schedule with the Building Official and Officer Colby. At this time, Mr. Abood could not provide the date and time of that inspection, but would provide that to the Committee. He then stated that after that inspection the OCA will take the results and determine how to proceed. Council Member Wood asked for a timeline and Mr. Abood was not able to provide that, however acknowledged he would have that by the 9/19/2019 Committee meeting.
RESOLUTION – Introduction & Setting Public Hearing; Chapter 1300 Amendments

Council Member Wood referenced the two drafts, noting the only change from what the Committee voted on at the last meeting was the buffering at parks and day cares the buffering was moved back to 500’. It was confirmed that the draft labeled “Planning Board Recommendation” would be changed to “Draft #1F”, and Draft #1E” was what came out of the Planning board. Council Member Wood added that based on communications with the Administration they have concurred with the ordinance from the Committee with the change to the 500’ buffer. The OCA was then asked about amending the ordinance to address the sale of alcohol at the social clubs. Ms. O’Boyle read the State Emergency rule 13 which stated the sale or consumption of alcohol is only permitted if allowed by other State or Federal laws. and permitted unless the City prohibits it, therefore the Committee asked the OCA to add the language. Lastly, the OCA distributed draft language for page 49, a new Section 49 which would address existing business, applicants in the process and “grand fathering”.

MOTION BY COUNCIL MEMBER HUSSAIN TO SET THE PUBLIC HEARING FOR SEPTEMBER 30, 2019 FOR DRAFT #1F WITH THE PROVISIONS MADE TO PAGE 49 SECTION 4 AND SECTION 5, AND THE ADDITIONAL LANGUAGE TO ADDRESS LIQUOR LICENSES. MOTION CARRIED 2-0.

Council Member Wood asked Ms. Hagen to create a memo outlining the differences between the current and new ordinance, and on 9/23/2019 the Committee of the Whole will go through it. She asked that the memo include the details that the social clubs and micro-businesses are included because if they do not opt out they have to make these uses competitive.

DISCUSSION – Correction Notice Fees

Ms. Bowen informed the Committee that the OCA is still working on an analysis and proposal and anticipate information at the September 19, 2019 meeting. Mr. Abod added that when Council looks to increase fees they have to justify with the cost and not make it a revenue endeavor. Council Member Hussain asked Mr. Sanford when the original $75 fee was established. Mr. Sanford was not able to provide a date, but in his opinion it was older than 20 years, and inflation should be taken into consideration.

DISCUSSION – FY 2020/2021 Budget Priorities

Council Office Manager highlighted proposed amendments from other Committees, and noted the document will be Draft 2 in the Committee of the Whole Monday night. The Committee reviewed page 6, III a). Council Member Hussain stated to Mr. Sanford, that at past meetings it was noted that Code needs assistance, however Council needs to know what they need, specific to numbers and funding. Mr. Sanford acknowledged he cannot provide that because he believes they are never at full staff due to retirements and leaves. He did confirm that they have the equipment just not the people. Council Member Hussain then inquired into if HR can do something to reach out to people when they are not hired and advise them on what they need to do to qualify for future employment. After review of all 111 a) the Committee determined to keep everything currently in the document from the previous year because it continues to address the concerns.

Update from City Attorney’s Office; City of Jackson Ordinance on Relocation Assistance for Displaced Tenants

Ms. Hagen informed the Committee that in April Council Member Spadafore had asked the OCA to begin working on an ordinance based on the City of Jackson’s ordinance and since that time the draft she wrote went through the OCA Ordinance Committee and she is now in the process of rewriting it. Council Member Wood informed Council Member Hussain that she
Council Member Wood has spoken to Council Member Spadafore and asked it come through this Committee and he can attend those meetings as well.

Council Member Wood asked Ms. Hagen to coordinate a meeting with the OCA and Brian McGrain to address the recent sign complaints and feedback from businesses with concerns. It was noted to Ms. Hagen that Mr. McGrain had indicated there were some proposed changes and they were going to follow up, however Council has not heard back. Council Member Hussain asked if the businesses owners are pushing back on the 20% window coverage or are upset that the ordinance that has been in place is now being enforced. Council Member Wood stated her understanding was that it was a combination of both.

Parking Ordinance Changes – Chapter 404
Ms. Bowen confirmed for the Committee that the changes from Draft 3 to the recent Draft 4 dated 9/5/2019 could be found on page 7, lines 10-13. This now states “No more than one annual permit and one temporary permit may be granted per residential parcel within a permit zone at any given time; no more than 4 temporary permits may be granted per calendar year;” Ms. Bowen then referenced the last meeting where the discussion was on defining “designate parking”. Council Member Wood clarified that the Committee wanted it clear that if a resident received a permit it was clearly defined the designated area, so they did not believe their permit allowed them to park in already designated “no parking” areas. Ms. Bowen acknowledged that the ordinance does not have a Definitions” section, and the Committee confirmed for her that they were not specific on where it was stated in the document, but that it needed to be stated.

Council Member Wood asked Ms. Hagen to provide a bullet point memo on the changes, what the process is, etc.

Council Member Wood asked the OCA to review page 8 lines 21-23 and page 9 line 1 which spoke to “zones”, noting there are only two (2) zones; 1- Downtown, 1- Residential. The OCA was asked to work with Public Service, specifically Andy Kilpatrick to confirm the correct zones and language.

The Committee will review the ordinance at their September 19, 2019 meeting, setting the hearing at that time and at Council on September 30, 2019 for October 14, 2019.

Council Member Wood informed the Committee that the new 911 Dispatch Director will be at the October 3, 2019 Committee meeting.

Community asked to weigh in on Grand Rapids’ crime prevention ordinance

GRAND RAPIDS, MI -- Grand Rapids thinks it can reduce crime by implementing business design standards that use things like natural surveillance to deter people from committing criminal behaviors.
said the store saw a more than 20-percent reduction in calls for police service between the 11 months before and 11 months after renovations.

“Just a simple changing of the facade and how they’re managing the property made that much of a difference,” said Suzanne Schultz, the city’s planning director.

Key elements of attempting to prevent crime through environmental design include natural access management (physical guidance of people and vehicles); natural surveillance (maximize visibility and surveillance); territorial reinforcement (positive sense of ownership); and physical maintenance and management (general upkeep).

The ordinance would focus on businesses where controlled substances like beer, wine, liquor, tobacco and/or marijuana are sold, as well as massage businesses and late-night business operations. Its looked at as a way to address businesses more susceptible to crime, including the illicit massage industry.

Regulations are expected to most directly affect party stores, vape/smoke shops and dollar stores.

The city commission heard another presentation on environmental design on July 23. The city is inviting local stakeholders to give feedback on the proposal on Aug. 13 during a public hearing at the 7 p.m. commission meeting at City Hall.

Commissioners are expected to vote on the proposed ordinance at their Aug. 27 meeting.
Grand Rapids wants to reduce crime through building design standards

CPTED is a philosophy of crime prevention that utilizes a multidisciplinary approach to the built environment that is intended to deter criminal behavior and foster quality of life. It incorporates planning, design and management of built environment, and uses “subtle cues” to “assist in guiding positive behaviors.”

Proposed requirements in the ordinance include regulations to ensure visibility, minimum lighting criteria, and property maintenance standards. There could be a requirement for enhanced security measures if a business surpasses a set number of compliance issues within a defined period of time.

About half of the aspects of CPTED are already part of Grand Rapids’ codes in various areas. There have been challenges to enforcing them because some businesses were grandfathered-in before zoning code amendments and thus had non-conforming rights, and because current enforcement is complaint-based.

The proposed ordinance puts those codes and others under one enforcement entity. It enhances the city’s ability to enforce its design standards because the proposed regulations will be independent from the city’s zoning ordinance and businesses will not have non-conforming rights.

Grand Rapids plots next steps for improving community-police relations
In preparation of the ordinance being considered by the city commission, the planning department did some restructuring. It replaced its sign inspector position with a zoning inspector II position, which will serve as the city’s CPTED specialist. A city planner is now in charge of sign permitting, while the specialist will handle sign enforcement and act as a singular CPTED point of contact for businesses and residents.

The proposed ordinance will include an education and awareness component for businesses. Some of those efforts have already begun through neighborhood associations and community police officers, who have undergone CPTED training.

“It is intended that proactive education efforts will be undertaken prior to any enforcement actions so that a business or property owner clearly understands the desire to improve safety within Grand Rapids and how CPTED principles apply to their site,” according to a city agenda item related to the proposal.

The city is also considering a pilot facade grant program in partnership with local corridor improvement district boards, philanthropies and business owners, to encourage improvements for non-conforming storefronts.

More discussion is needed to gauge the level of interest in supporting such a program.

Grand Rapids’ proposed CPTED ordinance was called for by the commission via a unanimous vote on July 24, 2018. If adopted, it would be the first of its kind in the country, according to the city.
AN ORDINANCE TO ADD CHAPTER 175 ENTITLED “CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN (CPTED)” TO TITLE IX POLICE REGULATIONS OF THE CODE OF THE CITY OF GRAND RAPIDS

ORDINANCE NO. 2019-__

THE PEOPLE OF THE CITY OF GRAND RAPIDS DO ORDAIN:

Section 1. That Chapter 175, Title IX of the Code of the City of Grand Rapids be added, to read as follows:

“CHAPTER 175 CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN (CPTED) ORDINANCE

ARTICLE 1 TITLE, PURPOSE, AND SCOPE.

Section 9.929. Title.

These regulations shall be known as the “CPTED” Ordinance of the City of Grand Rapids, Michigan.

Section 9.930. Purpose and Intent.

A. Crime Prevention through Environmental Design, known as CPTED (pronounced “sep-ted”), is a philosophy of crime prevention that utilizes a multidisciplinary approach to the built environment that is intended to deter criminal behavior, foster improved quality of life, assist in achieving community-policing goals, and facilitate self-policing by the community. CPTED draws on passive strategies incorporated into the normal planning, design, and management of the built environment. This ordinance focuses on goals that relate to the physical built environment and generally addresses the following key elements of CPTED philosophy:

1. Natural access management for the physical guidance of people and vehicles;
2. Natural surveillance to promote and maximize visibility;
3. Territorial reinforcement to delineate space and express a positive sense of ownership; and
4. Physical maintenance and management for the general upkeep of a building or area.

B. CPTED enhances community-policing, self-policing by the community, and collaboration between property owners, businesses, residents and neighborhoods in the following ways:
1. The creation of a safe environment, both real and perceived, is coupled with place-making to foster community belonging and ownership that discourages criminal behavior.

2. In healthy and safe communities, people are able to generate and implement practical solutions to neighborhood issues because residents are able to coordinate and communicate when not under environmental stress.

3. Human-scaled, pedestrian-oriented environments allow for face-to-face social interaction, relationship building, the self-management of behaviors and community accountability.

4. A relationship-based community can help encourage and maintain community self-policing efforts to reduce the need for City resources and police intervention in places that may be sensitive to a police presence.

C. These provisions are intended to maintain and enhance the attractiveness and economic vitality of business districts and commercial areas by providing a comprehensive approach focused on establishments that sell tobacco, alcohol for off-premises consumption, and marijuana; therapeutic massage facilities, bodyworks facilities, and those potentially engaged in the illicit massage-adult sexual services industry; and businesses that are open past midnight, subject to certain conditions, in the implementation of CPTED principles to create a safe environment for Grand Rapidians in the following ways:

D. The provisions of this Chapter are deemed to be the minimum requirements necessary for the promotion of the public health, safety and general welfare of the people of Grand Rapids. In addition to the standard requirements of this ordinance, enhanced measures are also provided to reduce recurring issues on sites of chronic non-compliance.

E. These regulations should be used in conjunction with the associated relevant chapters of City Code, including the Zoning Ordinance, Nuisance Code, and Building Maintenance Code.

Re: Proposed 2 am-5 am parking ordinance

1. 404.13 - I do not support the language here requiring parking zones to be established by ordinance and confirmed by issuance of traffic control orders. Traffic control orders already require Council approval by resolution. 404.11, passed unanimously by Council and supported by me, allows traffic control orders to establish zones and the conditions within those zones (location, time period, signage), and this is the appropriate language that should be utilized regarding all parking zones. The proposed language in 404.13 of committee draft 3, which requires an ordinance change for each zone, will be an unnecessary additional step and add significant time to the process. Using the language in 404.11 where traffic control orders are used to establish zones, Council will still have final oversight to approve any permanent traffic control order creating a zone. So, if there is outcry from residents within a proposed zone, Council will have the opportunity to address it.

2. 404.13 (B)(5) - I do not support the requirement of an explanation by the applicant of the need to park on a residential street within the zone between 2 am and 5 am. People should be able to apply and receive these permits without being judged by the city for the reason. You have said that this is to prevent those with packed garages from being able to park on the street. I understand this argument, but I what people choose to do within their own homes is up to them. What happens within the privacy of someone’s home is their business, as long as it is not a health violation. Additionally, there are no specific conditions listed in the ordinance on what qualifies as need and I don’t want our parking manager to have to decide if using a closed garage for storage is an appropriate reason or not to give out a temporary or annual parking pass. Having a lot of stuff in a garage is not an ordinance violation, and if that is how people
want to use their garage space then we should not prevent them from having an on-street annual or temporary parking permit if they are in an allowable zone and meet the conditions of the ordinance.

3. 404.13 (C) (3) - this language needs to be more vague. As technology becomes available, requiring a sticker may not be the best way to display the license. Additionally, if the sticker must be visible on the front driver side windshield then we could have problems when there is snowfall if the car is not cleaned off. I can have Parking come up with language that will allow for the best enforcement. Or we can say in the ordinance that Parking will create rules on how to post and display the permits. We should change this in 404.11 at some point also.

4. 404.13 (D) (3 and 4) - see above. Same issue. The hangtag may not be the best way to post a permit in a vehicle. And visibility of a hangtag could be an issue in or after snowfall, or in detrimental conditions.

5. 404.13 (E) (4) - I don't understand the reasoning behind only granting one annual permit and one temporary permit at a time. Nor do I see the reasoning behind limiting to no more than 4 temporary permits per calendar year. A family could have children with cars that need to park them on the street annually. And a person could have visitors several times and need to use temporary permits at different times throughout the year. These limitations seem unnecessary. While I would prefer this language to be removed, if Council feels strongly about needing limitations I would be okay with a compromise that removes the limitations and instead instructs Public Service to include limitations in the traffic control order (or to amend the traffic control order in the future) if the conditions of the zone necessitate it or if a majority of the residents of the zone request limitations through surveys of some sort.

6. 404.13 (E) (9) - Permit holders should be able to transfer permits, but it should be subject to approval of the Parking office. This change should be made in 404.11 also.

7. 404.13 (E) (10) - This language is fine, but I would like added that notice must be given to the parking office.

8. 404.13 (F) - See above. These are not needed as parking zones should be issued by traffic control orders. Again, we are surveying to indicate where we want to start. And we will use the info from public comment through city council meetings. Once we know where the zones are and the conditions in the zones, we will sell permits and bring on staff to accomplish the enforcement. The intention will be for this to be revenue neutral, in order to pay for the enforcement staff. At first, current staff will be offered overtime to do this and we will bring on contract employees to fill the time that our staff can't fill. Once this is up and running, we can see about hiring permanent staff to do this and will evaluate if it is simply part time staff, or if we raised enough money to have full time staff that can also be on during the day if the hours work out.
