MINUTES
MOTION BY COUNCIL MEMBER HUSSAIN TO APPROVE THE MINUTES FROM SEPTEMBER 19, 2019 AS PRESENTED. MOTION CARRIED 2-0.

DISCUSSION
DISCUSSION – Ingham County 911 Dispatch Director
Council Member Wood informed the group that Council staff received a last minute communication that the 911 Dispatch Director would not be able to attend, and the Committee determined the next date they would be attending would be the November 7, 2019.

Due to quorum, the Committee meeting on October 17th has been moved to October 24th.

DISCUSSION -
Discussion – Correction Notice Fees and Fines
Mr. McGrain acknowledged he could not speak to the justification of the amounts but could talk about repeat offenders. Council Member Wood stated at the last meeting there was a
discussion on if it is a fee or fine, and a fee cannot exceed the cost of what it costs to do business, so before making any amendments the Committee was trying to find out what metric was used to determine the amount. Mr. Sanford confirmed that the administrative fee is $265, and he calculated the fees and fines in the document before the Committee he looked at hourly, fringe, cost of car and discussed with Mr. McGrain and OCA. The changes included second notice fees of $75, a 3rd notice of $150 and subsequent to $300 per visits. The fine for grass is at $265, but those complaint, they noted, have decreased. Council Member Wood asked how many complaints were repeat complaints. Mr. Sanford stated they are not able to sort them that way. Council Member Hussain asked if there was a decrease due to the symptom of down officers or no rechecks. Mr. Sanford acknowledged premise is consistent, but residents are realizing that it is cheaper for them to just comply and mow then to have the city send a contractor. Council Member Wood asked Mr. McGrain what the impact on the budget would be and Mr. McGrain stated it would not be a giant impact to budget, get because they are currently getting 90% of compliance, and this would be an additional incentive. Council Member Wood inquired into how many complaints they get on trash and mowing from people who cannot afford to correct it. Mr. McGrain confirmed they try to work with them. Council Member Wood asked Mr. Sanford to work with Mr. Brewer on a spreadsheet to document repeat complaints.

MOTION TO APPROVE THE RESOLUTION TO RAISE THE FEES FINES FOR CORRECTION AND CODE ISSUES. MOTION CARRIED 2-0.

Discussion – Ordinance on Relocation Assistance
Ms. Hagen acknowledged she was still working on it and had no updates. Mr. Smiertka asked to combine this item with “Discussion - Ordinance on Fines for City Staff Man-Hours on Continual Offenders/Landlords of Rental Properties”. The OCA representatives stated they working on these items, including speaking to District Court and researching the former Ordinance Violations Bureau the City used to have. Mr. Smiertka did added that they found that the Ordinance Violations Bureau does not serve a purpose, and the process in place now with District Court is working and all money comes back to the City. If the civil infraction is issued then they would be into the District Court and the court could file for receivership, and handle it there. Mr. Smiertka encouraged an early intervention approach that would be to write a ticker immediately on the property owner and get it in front of the courts. Ms. O’Boyle spoke briefly on Woodside and the current status. Mr. McGrain added to the discussion that his department has been using the pink tags and actively working on getting some serious issues addressed. He asked that the Committee allow the department to work with the OCA cases; case by case. Council Member Wood asked if there was a log to show the number of hours spent on each property by the OCA, Code and Building Safety, so when they go to court to get the costs they can also go to the judge for costs incurred by the City. Ms. O’Boyle stated the OCA court costs and time are set by statutory standards, so she was not sure if these can be collected. Mr. Smiertka added to the response that they are all under the State civil infraction limit and might be able to think about increasing the civil infraction fines. Council Member Wood noted to the OCA, that their document could at least be used show the City tax payers how much is being spent. She then asked the OCA to be back before the Committee on both these items before the end of the year. The OCA confirmed he was currently working on a booklet he hoped to have complete in the next 2 weeks, and Mr. McGrain noted he already had a meeting set up with Jackson Code Enforcement on their process.

Discussion – CPTED – Crime Prevention through Environmental Design
Chief Green at the last meeting stated he would reach out to MSU and Ms. Hagen was going to continue to reach out to Grand Rapids on their ordinance. This will be added to the agenda on October 24, 2019.
Discussion – Committee Report on Ordinance Amendments to Chapter 404, Section 404.13

Parking

Council Member Wood noted to the Committee that earlier in the week the Mayor’s office proposed the document that was in front of them now, Section 404.11. The OCA was asked their comments on who work on it with the Mayor, and Mr. Smiertka stated they only looked at the language. The Committee asked that Ms. Harkins and the Mayor be invited to the October 24, 2019 meeting. Ms. Hagen was asked by Council Member Wood to compare the Committee Ordinance for Chapter 404 Section 404.13 with the recent document from the Mayor.

OTHER

Council Member Wood asked Mr. McGrain for an update on the vacant positions in Code Compliance. Mr. McGrain confirmed they will be hiring within the next month, current do have an officer out, so essentially down a code and premise officer. The clerical openings are currently filled with temporary staff, and they hope to have those posted within the week.

Intentionally Left Blank
AN ORDINANCE TO ADD CHAPTER 175 ENTITLED “CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN (CPTED)” TO TITLE IX POLICE REGULATIONS OF THE CODE OF THE CITY OF GRAND RAPIDS

ORDINANCE NO. 2019-

THE PEOPLE OF THE CITY OF GRAND RAPIDS DO ORDAIN:

Section 1. That Chapter 175, Title IX of the Code of the City of Grand Rapids be added, to read as follows:

“CHAPTER 175 CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN (CPTED) ORDINANCE

ARTICLE 1 TITLE, PURPOSE, AND SCOPE.

Section 9.929. Title.

These regulations shall be known as the “CPTED” Ordinance of the City of Grand Rapids, Michigan.

Section 9.930. Purpose and Intent.

A. Crime Prevention through Environmental Design, known as CPTED (pronounced “sep-ted”), is a philosophy of crime prevention that utilizes a multidisciplinary approach to the built environment that is intended to deter criminal behavior, foster improved quality of life, assist in achieving community-policing goals, and facilitate self-policing by the community. CPTED draws on passive strategies incorporated into the normal planning, design, and management of the built environment. This ordinance focuses on goals that relate to the physical built environment and generally addresses the following key elements of CPTED philosophy:

1. Natural access management for the physical guidance of people and vehicles;
2. Natural surveillance to promote and maximize visibility;
3. Territorial reinforcement to delineate space and express a positive sense of ownership; and
4. Physical maintenance and management for the general upkeep of a building or area.

B. CPTED enhances community-policing, self-policing by the community, and collaboration between property owners, businesses, residents and neighborhoods in the following ways:
1. The creation of a safe environment, both real and perceived, is coupled with place-making to foster community belonging and ownership that discourages criminal behavior.

2. In healthy and safe communities, people are able to generate and implement practical solutions to neighborhood issues because residents are able to coordinate and communicate when not under environmental stress.

3. Human-scaled, pedestrian-oriented environments allow for face-to-face social interaction, relationship building, the self-management of behaviors and community accountability.

4. A relationship-based community can help encourage and maintain community self-policing efforts to reduce the need for City resources and police intervention in places that may be sensitive to a police presence.

C. These provisions are intended to maintain and enhance the attractiveness and economic vitality of business districts and commercial areas by providing a comprehensive approach focused on establishments that sell tobacco, alcohol for off-premises consumption, and marijuana; therapeutic massage facilities, bodyworks facilities and those potentially engaged in the illicit massage-adult sexual services industry; and businesses that are open past midnight, subject to certain conditions, in the implementation of CPTED principles to create a safe environment for Grand Rapidians in the following ways:

D. The provisions of this Chapter are deemed to be the minimum requirements necessary for the promotion of the public health, safety and general welfare of the people of Grand Rapids. In addition to the standard requirements of this ordinance, enhanced measures are also provided to reduce recurring issues on sites of chronic non-compliance.

Community asked to weigh in on Grand Rapids’ crime prevention ordinance

GRAND RAPIDS, MI -- Grand Rapids thinks it can reduce crime by implementing business design standards that use things like natural surveillance to deter people from committing criminal behaviors.
said the store saw a more than 20-percent reduction in calls for police service between the 11 months before and 11 months after renovations.

“Just a simple changing of the facade and how they’re managing the property made that much of a difference,” said Suzanne Schultz, the city’s planning director.

Key elements of attempting to prevent crime through environmental design include natural access management (physical guidance of people and vehicles); natural surveillance (maximize visibility and surveillance); territorial reinforcement (positive sense of ownership); and physical maintenance and management (general upkeep).

The ordinance would focus on businesses where controlled substances like beer, wine, liquor, tobacco and/or marijuana are sold, as well as massage businesses and late-night business operations. Its looked at as a way to address businesses more susceptible to crime, including the illicit massage industry.

Regulations are expected to most directly affect party stores, vape/smoke shops and dollar stores.

The city commission heard another presentation on environmental design on July 23. The city is inviting local stakeholders to give feedback on the proposal on Aug. 13 during a public hearing at the 7 p.m. commission meeting at City Hall.

Commissioners are expected to vote on the proposed ordinance at their Aug. 27 meeting.
Grand Rapids wants to reduce crime through building design standards

CPTED is a philosophy of crime prevention that utilizes a multidisciplinary approach to the built environment that is intended to deter criminal behavior and foster quality of life. It incorporates planning, design and management of built environment, and uses “subtle cues” to “assist in guiding positive behaviors.”

Proposed requirements in the ordinance include regulations to ensure visibility, minimum lighting criteria, and property maintenance standards. There could be a requirement for enhanced security measures if a business surpasses a set number of compliance issues within a defined period of time.

About half of the aspects of CPTED are already part of Grand Rapids’ codes in various areas. There have been challenges to enforcing them because some businesses were grandfathered-in before zoning code amendments and thus had non-conforming rights, and because current enforcement is complaint-based.

The proposed ordinance puts those codes and others under one enforcement entity. It enhances the city’s ability to enforce its design standards because the proposed regulations will be independent from the city’s zoning ordinance and businesses will not have non-conforming rights.

Grand Rapids plots next steps for improving community-police relations
In preparation of the ordinance being considered by the city commission, the planning department did some restructuring. It replaced its sign inspector position with a zoning inspector II position, which will serve as the city's CPTED specialist. A city planner is now in charge of sign permitting, while the specialist will handle sign enforcement and act as a singular CPTED point of contact for businesses and residents.

The proposed ordinance will include an education and awareness component for businesses. Some of those efforts have already begun through neighborhood associations and community police officers, who have undergone CPTED training.

"It is intended that proactive education efforts will be undertaken prior to any enforcement actions so that a business or property owner clearly understands the desire to improve safety within Grand Rapids and how CPTED principles apply to their site," according to a city agenda item related to the proposal.

The city is also considering a pilot facade grant program in partnership with local corridor improvement district boards, philanthropies and business owners, to encourage improvements for non-conforming storefronts.

More discussion is needed to gauge the level of interest in supporting such a program.

Grand Rapids' proposed CPTED ordinance was called for by the commission via a unanimous vote on July 24, 2018. If adopted, it would be the first of its kind in the country, according to the city.

Re: Parking Ordinance 404.11, Public Safety Committee Draft, and Mayor’s Proposed Changes

Date: October 21, 2019

This is a summary of the provisions of the existing Parking Permit Ordinance, 404.11, the most current draft of the Public Safety Committee’s proposed 404.13 addressing Parking Permits in neighborhoods, and the Mayor’s proposed changes to 404.11 to incorporate the much of proposed 404.13. I am highlighting the operative provisions of 404.11 and proposed 404.13, and then detailing how Mayor’s proposed changes attempt to combine the two. Copies of the source documents are attached for reference.

404.11 Overview:

- Residential Permit Parking Zones for street parking are to be set by traffic control orders (TCO), pursuant to Michigan Uniform Traffic Code (UTC);
  - Note: all TCOs that are not temporary (such as for emergencies or road construction) must be approved by resolution of City Council).
  - Note: the TCOs set the limits on each specific zone, e.g.: where permit holders can park, what time of day the permits are good for, etc. These elements do not have to be consistent across all zones, and can be tailored to the needs of that specific zone based on traffic engineering considerations, and feedback from residents in the proposed zone.

- Places supervision and administration for the residential street parking program in the office of the Parking Manager. Directs the Parking Manager to work with the Public Service Department when temporary suspension of permitted parking to accommodate snow removal, construction, and other emergencies;

- An application for a permit must be made to Parking Director, and contain the following information:
  - Name of owner/operator of vehicle;
  - Primary address of owner/operator;
  - Email and cellular telephone contact information for owner/operator;
  - Vehicle description, including make, model, license plate and registration numbers;

- An applicant must upon request supply to following information as well:
  - Executed lease or other proof of primary address;
- Current, valid vehicle registration, and if operator is other than owner, certification that operator has control of vehicle and is keeping it at his or her primary address;

- Parking Director not required to grant a permit to any applicant;

- If granted, the permit;
  - is only valid for the vehicle it was applied for;
  - must be semi-permanently affixed to the vehicle windshield for enforcement purposes;
  - must be displayed on the vehicle at all times it is parked along the street;
  - must be paid for on an annual basis, and the permit year runs from September 1 to August 31;

- Annual permit fee to be set by resolution of Council;

- Other limitations include:
  - Permits are only valid in the TCO zone in which they were granted, i.e.: a zone "A" permit holder cannot park in zone "B";
  - Permits do not guarantee or reserve a street parking spot;
  - Permits do not exempt anyone from other parking regulations and ordinances, except the overnight parking limitation if the TCO so states;
  - Permits may be temporarily suspended to address snow removal, construction, and emergencies;
  - A permit holder may transfer their permit to a new vehicle, but not to a different person;
  - Repeated parking violations by a permit holder, in their zone, may result in revocation of the permit by the Parking Manager;
  - Explicit violations of this ordinance (404.11) will void any granted permit automatically, without notice.

Proposed 404.13 Overview (as of Committee Draft 4, dated 9/5/19):

- Overnight Permit Parking Zones for street parking are to be set by ordinance first, and then confirmed by traffic control orders (TCO), pursuant to Michigan Uniform Traffic Code (UTC);

- Supervision and administration of the Overnight Permit program is again placed with the office of Parking Manager, with the same considerations for snow, emergencies, and construction;

- An application for a permit must be made to Parking Director, and contain the same information as under 404.11, but
  - includes the option for a land telephone number in addition to cell phone and email;
  - and requires applicant to explain why they need to park overnight between 2 a.m. and 5 a.m.;

- The supplemental supporting documentation that applicant must provide upon request is the same as under 404.11;
- 404.13 provides for two types of overnight parking permits, as opposed to only the annual permit under 404.11:
  - **Annual Permits**, which are similar to the permits under 404.11, but with the following changes:
    - the permit year runs from July 1 to June 30;
    - payment plans may be set up at the discretion of Parking Manager;
  - **Temporary Permits**, which are not contemplated under 404.11, and have the following characteristics:
    - only to be granted if Parking Manager determines that the zone has capacity;
    - intended for use by non-resident visitors, but only if a resident of the zone applies for the permit, and sponsors the intended permit user;
    - only valid for 72 hours;
    - hangtag rather than a semi-permanent sticker;

- Other limitations are the same as under 404.11, but with the following additions:
  - No permit may be issued for RVs, mobile homes, trailers, boats, or vehicles with more than 2 axles;
  - No more than one annual permit and one temporary permit may be granted to a residential parcel at any given time;
  - No more than 4 temporary permits may be granted to a residential parcel per calendar year.

The Mayor’s proposal appears to combine several, but not all, new portions of the Committee’s proposed 404.13 with existing 404.11:

- Rename the “Permit” in 404.11 to be the “Annual Permit”;
- Add provisions for the “Temporary Permit” proposed in 404.13;
- Keep the changes to annual permit application requirements, except that he wants to further discuss the requirement for explanation of need;
- Relax the requirement that annual permits must be semi-permanently affixed, and allow Parking Manager to determine the format of the physical permit;
- Similarly, allow the display requirement to be flexible to accommodate different formats if approved by Parking Manager;
- Add the provisions in proposed 404.13 for temporary permitting, except that he wants to further discuss:
  - the limitations on how many annual permits and temporary permits can exist at any time, and
  - the limitations on how many temporary permits can be granted per calendar year;
- Add the restriction that permits not be issued for RVs, mobile homes, trailers, boats, or vehicles with more than 2 axles;
- Allow for permits to be transferred between people and vehicles with approval of the Parking Manager;
- Require that if a permit holder disposes of or sells the car they have an annual permit for, the permit holder must notify the Parking Manager.
404.11. - Residential permit for street parking.

Residential permit parking zone regulations and restrictions, including location, time periods, and official signage, shall be established by issuance of traffic control orders in compliance with UTC R28.1153 (Rule 153). (2) The current, valid registration for the motor vehicle for which the permit
is being applied:

(B) If the applicant for a residential street parking permit has his/her permanent residence at the address for which the permit is sought but the vehicle under his/her control indicates another address of residence for the owner of said vehicle, the applicant shall be required to certify that said vehicle is kept by the applicant and only at the address for which the permit is requested and that it will not be kept at any other location for the duration of the permit's validity.

The Parking Manager is not required to grant a permit to any applicant.

(c) Permit. The issuance of a residential street parking permit is subject to all the following requirements:

1. The permit is valid only for the motor vehicle for which it is issued;
2. The permit shall display the motor vehicle's license plate number and expiration date, and the zone where the permit is valid;
3. The permit shall be a sticker that is not easily removed, and must be affixed in a visible place on the front driver side windshield of the permitted motor vehicle;

6. A permit is only valid for as long as the owner or operator of the permitted motor vehicle continues to have as his or her primary residence the address that is within or adjacent to the designated residential street permit parking zone;

(8) A replacement permit may be issued only if all or part of the original permit is produced at the time that a replacement permit is applied for, or if proof of theft of the vehicle is demonstrated to the satisfaction of the Parking Manager;

(9) The fee for any replacement permit shall be set by resolution of City Council.

(d) Conditions on the permit and permit holder. The use and validity of a residential streets permit is subject to all the following conditions:

(1) A permit may be used only in the traffic control order zone for which it has been issued.

(2) A permit may be used only by the permit holder to whom it is issued.

(3) A permit shall not guarantee or reserve to the holder a parking space in the permit zone.

(4) A permit shall not exempt the holder from the observance of any parking or traffic regulation or ordinance, other than the specified overnight parking restriction.

(5) The City may temporarily suspend a permit for snow removal, emergency or construction purposes.

(6) A permit shall be completely removed from a vehicle upon its expiration or termination.

(7) A permit holder may not transfer a permit to any other person or vehicle.

(8) In the event a valid permit holder sells, transfers, or otherwise disposes of the motor vehicle for which a permit is granted, the permit shall terminate automatically.

(9)
A permit holder who desires to transfer their valid permit to a different vehicle must make a supplemental application to the Parking Manager indicating the change in vehicle, and must turn in the original permit as proof that it has been removed from the motor vehicle for which the permit was previously granted;

(10) If a permit holder commits three parking violations in the parking zone for which the permit has been issued, the permit, upon review, may be revoked by the Parking Manager;

(11) If a permit holder violates any of the conditions in this section, the permit shall automatically become void and be terminated and revoked without notice.
