6. Review of Communications: No Communications

7. Comments from the Chair: Stephen Purchase
   
   a. The Board has unique opportunity right now because we have a new chief and clean break after some interim periods. We can step up and make positive difference for the department. The board can advocate for the department’s needs. Thanks goes to the great quality of our Firefighters who jump in and get the job done without complaining. However, it is clear in reviewing where their equipment and stations are in their life cycles and the needs coming down the road that we have some work to do to make sure the department has the resources it needs to carry out their mission safely and to its best ability the way the community expects. Over the next couple months there are a number of things we can do to set ourselves up for that role really well.

   b. Until the end of the year: Focus on budget, annual report and policies.
