# **City of Lansing to Partner with Lansing School District as a Community Learning Lab**

**(LANSING)** – Mayor Andy Schor today announced that the City of Lansing is partnering with the Lansing School District to provide workspace during school hours for children of qualifying working Lansing School District families. The Lansing Parks and Recreation Department will offer limited spaces for children ages kindergarten through sixth grade at Foster Community Center (200 N Foster Avenue).

“Our families are facing many challenges as we head into the online-only return to instruction for the first marking period of the 2020-2021 school year. We must all work together to ensure that our children are successful and have access to an adequate online learning environment. The City of Lansing will offer a number of spaces at Foster Community Center for children who cannot be home alone while their parents are working,” said Mayor Schor. “Working together to support all Lansing children and families is the most important thing we can do during the COVID-19 pandemic.”

City staff and all participants must wear masks, wash hands frequently and follow social distancing guidelines recommended by the CDC. To qualify, proof of current employment must be provided with the application. For more information and to apply, please call 517-483-4313.
