Mayor Bernero Welcomes New Tier One GM Supplier

(LANSING)—Mayor Virg Bernero hailed today’s announcement by Tenneco that they have opened a new manufacturing facility in the city.

“I’m delighted to welcome Tenneco to Michigan’s capital city,” said Mayor Bernero. “As a Tier One auto supplier, Tenneco’s new Clean Air facility in Lansing represents another significant economic boost not just for the city, but for all of Metro Lansing. General Motors and their local supply chain is the gift that keeps on giving and we are so fortunate that they continue to grow and prosper right here in Lansing.”

Tenneco’s 70,000-square foot facility, located near Capital Region International Airport, opened June 5 and is responsible for sequencing exhaust assemblies (manufactured at Tenneco’s Litchfield, MI plant) for the GMC Acadia, Buick Enclave and Chevrolet Traverse models that are assembled at GM’s Lansing Delta Township plant.

Tenneco is an \$8.2 billion global manufacturing company with headquarters in Lake Forest, Illinois and approximately 30,000 employees worldwide. Tenneco is one of the world’s largest designers, manufacturers and marketers of clean air and ride performance products and systems for automotive, commercial truck and off-highway original equipment markets and the aftermarket.
