# Seasonal Yard Waste Collection Update

**(LANSING)** – Capital Area Recycling and Trash (CART) crews are still working to collect seasonal yard waste from across the city. The final collection of yard waste routes is still in process due to unexpected weather and other challenges related to seasonal staff, trucks, and equipment. As long as yard waste was placed at the curbside by Sunday, December 1, it will be collected before the end of the season.

Crews are currently in the process of collecting yard waste from houses that have a Monday, Tuesday, or Wednesday CART trash collection day. The map below indicates where crews are in process of collecting yard waste and where they will be next.

Please leave your bagged yard waste at the curbside until it is collected. If you believe your yard waste collection has been missed, please call 517-483-4400.

Status updates will be provided as available and posted to [www.facebook.com/LansingPublicService/](https://www.facebook.com/LansingPublicService/) and [www.lansingmi.gov/yardwaste](http://www.lansingmi.gov/yardwaste).
